16. Did space permit, it would be possible to deal at greater length with the trade relations between Canada and the Mother Country, but it may not be out of place to quote the following conclusions, relating to the British preferential tariff of Canada, which the Canadian Ministers submitted at the recent Colonial Conference:—

- (a.) That the preference is a very substantial and genuine one; (b.) that it gives British merchants a material advantage over foreign competitors in the Canadian markets; (c.) that the preferential rates are not too high to shut out reasonable competition with the Canadian producer; (d.) that the preference has resulted not only in arresting the continuous decline in British trade with Canada, but in stimulating the trade. If it had not been granted, it is not very likely that the volume of British imports into Canada would be as large as it is to-day, to say the least; and (e.) that the advantage given by Canada to the British manufacturer is proved beyond all question. If he has not fully availed himself of it that is not the fault of the Canadian Government or of Canadian fiscal policy.

AUSTRALASIA.

REPORT OF COMMERCIAL AGENT.

(*Mr. J. S. Larke.*)

THE EXCHANGE, SYDNEY, N.S.W., FEB. 23, 1903.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—A report from Australia must be monotonous, and it is feared, must continue to be for some time to come.

The weather during January and so far February has been disappointingly dry over a large area of New South Wales and Queensland. The other States are in better condition though portions of Victoria are as distressed as the worst parts of New South Wales. The suffering in this section as in Western New South Wales has become acute.

AUSTRALIAN CREDIT.

It is of importance to those concerned in Australian trade to have some knowledge of how far the drought has effected Australian credit. A warm discussion is now going on in England upon this subject and one writer, deriving his ideas from the gloomy side of the picture sometimes painted here, has predicted that a financial crash is imminent. The statistics to enable a full judgment to be formed upon this subject are not yet available but it is clear that so pessimistic a view is unwarranted.

The results of the drought even in New South Wales or Queensland are not sufficient to precipitate a crisis. The business of this city has been sustained in a remarkable manner. No large house has failed, and while caution is being exercised in loaning and the money market has hardened, there seems to be plenty to be had for legitimate business at moderate rates. Trade has fallen off and in some cases there will be losses instead of profits but under average conditions there will be nothing approaching a crash.

PRODUCTION OF GOLD.

A year ago I stated that I believed that the loss in the value of wool would be compensated for by the increased production of gold in Australia. Though the drought was somewhat severer than expected, the prediction will be nearly realized. The production of gold in Australia was :—

|            |           |      |
|------------|-----------|------|
| 1901 ..... | 3,874,888 | ozs. |
| 1902 ..... | 4,257,778 | “    |

An increase of 382,890 ozs. valued in round figures at a million and a half.

## LOSS IN THE VALUE OF WOOL.

The loss on wool will not be known for some time but to January 31, the shipments had been :—

A total decrease of 206,800 or a little over twenty-five per cent. Before the season is over the loss may have increased to thirty per cent of last year's clip but the price will be above thirty per cent of the previous year. It is doubtful if the decrease in value will be over a million and a half sterling.

## IMPORTATIONS FROM CANADA.

The direct importations of produce from Canada continue disappointingly small. Manitoba wheat is sent from United States mills and flour made from it, and it is shipped from New York, Tacoma and Seattle. There is a great desire to do business directly through Vancouver but there seems always something to stop any large transactions. I trust that it will yet be possible to have an inspection point as far west as possible so that wheat for Australia can be drawn from the most western districts and thus save the carriage to Winnipeg and back. It would make Vancouver a considerable shipping port. A sample lot of bran has been ordered here. The bran from white wheat would be preferred here to that from hard.

## OATS FALLING IN PRICE.

Oats are steadily falling in price and it is clear that in March they will be landed here at 2s. 3d. per bushel of forty pounds C. I. F. & E. It is anticipated that they will even go fourpence below this price in a couple of months. This will shut out Canadian.

Inquiries for literature upon Canada and that especially relating to the farm lands of the Western Territories steadily come. In some cases parties telegraph for it. A number of intending settlers have already left for Canada and others follow by succeeding steamers.

I have the honour to be,

Your obedient servant,

J. S. LARKE.

REPORT OF COMMERCIAL AGENT.

(*Mr. James G. Jardine.*)

P. O. Box 1232.

CAPE TOWN, February 12, 1903.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa, Canada.

SIR,—The full Import Returns for the past twelve months ending December 31, last for the Transvaal are to hand. The total value runs to no less than \$65,335,000, as compared with the year previous of \$18,320,000. As fully two-thirds of the former amount is for the period following the conclusion of peace, some idea will be gained of the enormous volume of trade that has set in toward the Transvaal, except when the fact is taken into consideration that tremendous orders are still unfilled on account of the inability of the railways to cope with the traffic.

During 1902, goods valued at \$27,000,000 came by Durban, by Cape Colony ports, \$32,000,000; by Lorenzo Marques, \$6,400,000. The Transvaal Custom's Dues for 1902 amount to \$7,400,000, as against \$2,400,000 for 1901.

TRANSCAAL, IMPORTS.

## AMERICAN AND GERMAN ENTERPRISE.

The United States and Germany have perhaps secured a greater proportion of this trade during 1902 than in previous years, especially in the cheaper grades of agricultural machinery and other supplies furnished to the Repatriation Boards in the Transvaal, including the Orange River Colony. Their representatives were posted in all large towns before the close of the war, and tremendous consignments of their stuff were lying at the various coast ports awaiting transportation to the interior, and thus they were enabled to supply the immediate demand for cheap machinery, &c. urgently needed by the Imperial authorities to enable 100,000 returned settlers to commence life once more on the veldt.

## CAPE COLONY.

The Revenue for the six months ending December 31, 1902, amounted to \$28,655,000, being an increase over the same period in 1901 of over \$8,000,000, but nearly 50 p. c. of this amount comes from the Government railways, namely \$14,000,000: 30 p. c. or \$9,000,000 from customs; and not a cent comes from excise, although many thousands of gallons of wines, brandies, &c., are produced in Cape Colony annually. The Custom's taxes are born principally by the consumer, the man of moderate means. In Cape Colony wheat is taxed 34 p. c., butter 22 p. c., cheese 43 p. c., jams 46 p. c., matches 49 p. c., coal oil 40 p. c., candles 43 p. c., tea 50 p. c. These heavy taxes on prime articles of food make this Colony one of the dearest places in the world to live in. Only when these taxes have been abolished, or considerably reduced, will emigrants be attracted here. As matters now stand the working classes of England, or white people from other countries, can't improve their position materially by coming here.

I have the honour to be, sir,

Your obedient servant,

JAMES G. JARDINE.

## FROZEN POULTRY.

Mr. J. G. Jardine, Commercial agent to South Africa writes to the department, under date of February 7, inclosing a letter received by him from an enterprising dealer in poultry and importer of food products. The letter is as follows :—

BURMESTER'S BUILDINGS, 92 ADDERLEY STREET, CAPE TOWN.

J. G. Jardine,  
Canadian Trade Agent,  
&c., &c.

SIR,—I desire to express my indebtedness to you, for your kindness in having written about me to your Canadian friends.

I am pleased to be able to inform you that several of them have written to me and are sending me small trial shipments of their respective lines, which I trust may ultimately result in a large business between us.

Referring to our conversation yesterday, in regard to this product, the following are particulars, viz :—

The weight should be not less than  $2\frac{3}{4}$  lbs. nor more than  $3\frac{1}{2}$  lbs., as the duty is 2 d. per lb. and over this weight, this charge becomes excessive. They should be packed in strong wire bound cases, containing from 20 to 25 birds. The cases should be perforated at each end with five holes of 1-inch diameter.

The open crates in which Australian shippers send us frozen poultry are a complete failure ; half of them being landed here in a damaged condition and many of the fowls being consequently abstracted. Each case must be branded [C], numbered, and each must have marked on it the net weight contained therein ; which information must also be afforded in the invoices for Custom House purposes ; as I am unable to clear the goods without it.

The dealers here are not particular about the sex of the poultry ; but the fowls should be fat and not too old. If the price was right, I could take a large quantity ; probably 4,000 per month. In any orders which I may send I would like ninety per cent fowls and ten per cent ducks.

I may mention, for your information, that I am supplying the contractor to the Military hospitals here ; and receive regular fortnightly shipments from London. This is very superior poultry ; excellently put up ; each fowl is wrapped in paper, and they are not too old. Although coming from London, they are of course not English poultry ; the greater part coming from Russia. They are put up in cases, such as I have described, and arrive here in perfect order.

My London shippers draw on me at 60 days sight adding Bank charges ; and documents are surrendered on acceptance.

You might ask your correspondents to send me over small trial shipments ; and request them to be good enough to let me know their cable addresses ; so that in the event of the shipments turning out satisfactorily, I may be able to cable them for other parcels.

Cables addressed "Carter, Cape Town" will reach me,

Yours faithfully,

(Signed). G. M. CARTER.

## POULTRY IN THE OTHER COLONIES.

Mr. Jardine further states :—

In the Transvaal, Natal and Orange River Colony there is a much larger demand for poultry than in Cape Colony. The J. W. Taylor Co., Ltd. of Johannesburg and Natal would be glad to hear from Canadian exporters with a view to handling turkeys, geese and fowls, to be sent monthly in our direct line of steamers.

## RAILROAD SUPPLIES.

Mr. Jardine under date of February 10, writes that he addressed a communication to the General Manager of the Cape Government Railways at Cape Town in which he explained the position of the Canadian manufacturers of railroad supplies and their desire to tender for future requirements.

Mr. Jardine has reported that in reply he was informed that: 'the Agent General for Cape Colony, London, transacts all the business of this nature for the railways and that he is apparently, very willing to place orders with Canadian exporters, other things being equal.' Mr. Jardine wishes to call the attention of exporters of railway and building materials generally to this fact. He states that 'Time would be saved by communicating with the High Commissioner for Canada at London and informing him of their ability to tender for such articles.'

## MR. JARDINE'S MOVEMENTS.

Mr. Jardine has informed the Department of Trade and Commerce under date of March 9th, that he purposed leaving Cape Town on the tenth of March for Bloemfontaine to attend the sessions of the Union Customs Congress for South Africa. Mr. Jardine intends visiting all points of importance immediately upon the adjournment of the Congress and expects to be absent for some months from Cape Town. Intending correspondents may direct letters to Box 1232, Cape Town, whence they will be promptly forwarded.

\* The total production of pig iron in Canada in 1902, from Canadian and foreign ores amounted to 357,903 tons, valued at \$4,243,545, of which it is estimated 71,665 tons, valued at \$1,043,011, should be attributed to Canadian ore and 286,238 tons, valued at \$3,200,534, to the ore imported.

- (a.) Quantity or value of product marketed. The ton used is that of 2,000 lbs.  
 (b.) Copper contents of ore, matte, &c., at 11·626 cents per lb.  
 (c.) Lead contents of ores, &c., at 4·069 cents per lb.  
 (d.) Nickel contents of ore, matte, &c., at 47 cents per lb.  
 (e.) Silver contents of ore at 52·16 cents per oz.  
 (f.) Oven coke, all the production of Nova Scotia and British Columbia.  
 (g.) Gross return from sale of gas.  
 (h.) Includes crude oil sold to refiners and oil sold for fuel and other purposes.

|   |  | in addition to counter-vailing duty, if any, on the raw sugar. |    |    |

\*The output of refined sugar from raw is computed by deducting from the polarization of the raw sugar twice the glucose, four times the ashes, and one and a half per cent for loss in refining.

## SOUTH AFRICAN CUSTOMS UNION.

## I.—REBATE OF CUSTOMS DUTY ALLOWED IN CAPE COLONY UPON GOODS REMOVED OVERLAND BEYOND THE LIMITS OF THE CUSTOMS UNION.

*(Government Notice No. 794, of November 6, 1902.)*

Under and by virtue of section 5 of the Customs Union Tariff Act No. 1, of 1889, His Excellency the Governor, with the advice and consent of the Executive Council, has directed it to be notified that on and after November 7, 1902, Government Notice No. 303 of March 28, 1901, shall be cancelled, and that on and after that date rebate of customs duty to the extent shown in the schedule hereunto annexed shall be allowed on goods imported or warehoused on importation into this colony, whenever such goods shall be removed overland to any colony, state or territory outside the Customs Union, in accordance with the regulations from time to time prescribed in that behalf.

By order,

HENRY DE SMIDT,

*Assistant Treasurer.*

## SCHEDULE.

1. On all goods, wares, or merchandize chargeable with duty under the Customs Amendment and Tariff Act, 1898, classes I., III. and IV., rebate shall be allowed to the extent of the difference between the duties specified in schedule B. to the said act, and a transit duty of three pounds sterling for every one hundred pounds of the value of such goods, &c., and such transit duty of 3 per cent *ad valorem* shall be the 'duty, less rebate,' to be paid on such goods, &c., except as to the following articles, viz. :—

Cigars, spirits and wine, on which such a rebate shall be allowed as to grant the importer the option of paying the transit duty of 3 per cent *ad valorem*, or sixpence per pound weight on cigars, and sixpence per gallon on spirits and wines.

Battery cloth, gauze, matting, sieving and screening; cement; chain; cranes, elevators and sheers; crucibles and cupelling furnaces and cupels, cyanide of potassium and other materials exclusively intended for the separation of metals from ore and for the sorting and sifting of metals and ore, and for the manufacture of chemicals or acids necessary for gold extraction, except sulphuric acid; electric cable or wire, and posts for same, and their fittings; lamps and switches (electric), not including fancy or ornamental lamps, switches and fittings for indoor lighting; lamp posts (electric), and their fittings; felt, covering; flour, wheaten and wheaten meal, including pollard; furnaces for roasting minerals; galvanized corrugated iron; gaspipes, lamp posts (gas), and their fittings, including lamps; gums of all description; hose, steam suction and armoured, for use in connection with machinery, but not including garden; India rubber for machinery and mining apparatus and appliances; lead foil; machinery, including spare parts, not enumerated in the free list attached to the Customs Union tariff, not being for domestic use; moulds, ingot; mules and geldings; ores and minerals, crude; plates of iron and steel combined; potatoes and onions (not preserved); retorts; rivets and bolts and nuts (metal); second-hand furniture and tools of mechanics and persons about to reside in the Transvaal; shafting; steel and iron chimneys (smoke stacks); tanks and vats, suitable and intended for mining purposes; tin and zinc, in blocks and discs; tramway equipment requisites, such to mean the following, cars, trolleys, water-tanks and turntables; valve hide; wire, bells and gongs; signalling, for use in and about mines; wood, unmanufactured, including planed, tongued or grooved, plain boards unshaped; on which rebate shall be allowed on the whole customs duty.

2. On all goods, articles and things of every description imported or taken out of bond by or for the use of either of the administrations of the Transvaal or Rhodesia, rebate of the whole Customs Union duty shall be allowed: Provided that, whenever

such rebate be claimed, a declaration under the hand of proper officers appointed by the Administrations of the said territories shall be delivered to the customs, showing that the goods, &c., are bona fide for the sole and exclusive use of one of these Administrations, and not to be sold or otherwise disposed of, and that any duty levied thereon would be borne directly and permanently by either of the treasuries of the said territories.

3. On goods imported through the letter post, rebate of the whole Customs Union duties shall be allowed.

4. In case any goods shall be under-entered in value, whether or not they be specially rated articles, the provisions of section 5 of Act No, 6 of 1898 shall apply.

II.—PROTOCOL TO THE CUSTOMS UNION CONVENTION OF 1898, WHICH CAME INTO OPERATION FROM JANUARY 3, 1899.

In virtue of this protocol, the period over which article XV. of said convention is to have effect has been extended to five years reckoned from the date of the taking effect of such convention.

III.—PROCLAMATION OF THE GOVERNOR OF NATAL IN COUNCIL, No. 92, DATED NOVEMBER 11, 1902, GRANTING REBATE OF DUTY ON GOODS REMOVED OUTSIDE THE CUSTOMS UNION.

On and from November 1, 1902, there shall be allowed, as regards goods, wares or merchandize, chargeable with a duty under the ‘Customs Union and Customs Duties Act, 1898,’ and removed either direct from the importing ship or from a bonded warehouse within the Customs Union to any colony, state or territory outside the Customs Union, such a rebate of the customs duty as will reduce that duty, in each case, to the relative rate specified hereunder :—

### III.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for New South Wales, Queensland, and New Zealand.

D. H. Ross, Melbourne, Victoria, agent for Victoria, South Australia, Western Australia and Tasmania.

James G. Jardine, P. O. Box 1232, Cape Town, Cape Colony, agent for South Africa.

Peter B. Ball, 16 Bennett's Hill, Birmingham, England, agent for Birmingham.

A. Poindron, 101 Rue Réaumur, Paris, France, agent for France.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Christiania, Norway, agent for Norway, Sweden and Denmark.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

W. L. Griffith, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, Newton Chambers, 43 Cannon St., Birmingham, England.

Alfred Jury, Old Castle Buildings, Preeson's Row, Liverpool, England.

Bruce Walker, 52 St. Enoch Square, Glasgow, Scotland.

John Webster, 14 Westmoreland St., Dublin, Ireland.

Edward O'Kelly, 13 Queen's Square, Belfast, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

#### IMPERIAL INSTITUTE.

*(Report of Mr. Harrison Watson.)*

IMPERIAL INSTITUTE,

LONDON, S.W., March 20, 1903.

The Right Honourable

The Minister of Trade and Commerce

Ottawa.

SIR,—I have the honour to submit my annual report in connection with the commercial work conducted by the Canadian Section of the Imperial Institute during the year ending December 31, 1902.

The year 1902, embracing as it did the historical Coronation festivities, in celebration of which were congregated in London representatives from every section of this vast Empire, will long be remembered as marking an important era in the consolidation of Imperial interests. To Canada, individually, the past twelve months have been of vital importance, for they have witnessed the commencement of what can be best described as the 'boom' in everything pertaining to the Dominion, which happily is still in full swing in the United Kingdom.

## EXHIBITIONS.

There is good reason to suppose that the excellent displays made by the Dominion at the Glasgow and Wolverhampton, and also at the Royal Exchange Exhibitions, have contributed materially to the increased public interest now being evinced in Canadian matters. As mentioned in previous reports, we are constantly receiving applications from the promoters of temporary exhibitions held in the neighbourhood of London and in the provinces, for the loan of specimens of the resources and products of Canada. To these, so far we have unfortunately been unable to adequately reply, owing to the absence of the necessary materials. As the results of these exhibitions are often far-reaching, for they constantly advertise the natural wealth of the Dominion to different sections of the population, it is to be hoped that future arrangements made by the Canadian Government will include the provision of facilities for doing this work.

## WORK OF THE CANADIAN SECTION.

Work has continued much on the usual lines. There is a constant application for the addresses of exporters of produce and provisions, grain, timber and other lines of which the Dominion is a considerable natural producer. Inquiries also come in to a considerable extent as to Canada's capabilities for furnishing supplies of partly manufactured materials and for completely manufactured goods. In many cases it is possible to furnish information immediately, but in others it is found desirable to supplement the same by instituting a special inquiry in Canada for more special details. On the other hand, the phenomenal development of the Dominion is constantly increasing the scope of products both natural and industrial for which an export outlet is desired, and this office is in receipt of applications from all parts of Canada for information as to the practicability of establishing trade in the United Kingdom in various kinds of goods.

## THE PREFERENTIAL TARIFF.

In addition to the causes indicated, I am of opinion that the moral effect of the preferential tariff has indirectly been a great factor in developing Anglo-Canadian trade. It has promoted a cordial feeling towards Canada and induced many important business men to devote an attention to Canadian conditions and requirements which was previously lacking.

There have been for some time a number of applications from British manufacturers and shippers seeking to develop a market in Canada, and the volume has increased as a result of the closer association of this office with the department of the Board of Trade. In certain instances these British houses decided to send a representative out to Canada to personally examine into the ruling conditions. To such, not only general information is furnished, but letters of introduction are given. It is quite certain that most of these gentlemen who visit Canada, return with a knowledge of her commerce and resources which often produces very important results. The number of Canadian business men visiting this side is also markedly increasing and we are often able to assist them with preliminary information affecting their particular branch of trade. The custom of supplying items of commercial inquiry to the press both in Canada and this country has been continued.

## APPLICATIONS FOR TRADE INFORMATION.

As usual, applications for information about the trade possibilities for certain goods which had not previously been dealt with by this office came up, and the following may be cited among subjects of special investigation: Roofing slates, horse hair, oysters, fish glues, hog's bristles, butcher blocks, drawing boards, clog soles, Canadian carpets. With the present development of the hog industry and similar enterprises, Canada apparently will soon become a shipper of various by-products which are in steady demand in this market.

## MANUFACTURES.

Canadian exports of partly and wholly manufactured goods are steadily growing both in volume and variety. It is apparent that the trade in wholly manufactured goods, apart from articles for the production of which the natural resources of the Dominion furnish peculiar facilities, is one attended by special circumstances. The investigation of the details often intricate can only be satisfactorily carried out by the manufacturer himself or his representative who is personally familiar with every feature of the particular industry. It has before now been urged in these reports that the only royal road for the Canadian manufacturer to follow who seeks to establish a market over here, where investigation shows prospects to be promising, is to come over and be prepared to spend not only a few days but often several weeks in carefully studying conditions and requirements.

The experiences which constantly come under my notice of individual visitors, tend to confirm this view. Raw materials and partly manufactured goods are undoubtedly the primary requirements of this country and there is often a market for articles which have attained a stage of manufacture almost complete save as to actual finish, but which admit of transportation in a 'knock down' or compressed shape when the same article wholly finished is either not in request or cannot be laid down at a return profitable to the shipper. Moreover the wants of the Canadian manufacturer and the British importer run often in different channels. Nearly all Canadian industrial enterprises were originally established for supplying the wants of the domestic market without, in most instances, any particular attention to the possibilities of export. That was a later phase. As a result, whereas capital has naturally been forthcoming for ventures from which local markets promised an immediate and profitable return, investment in other industries, the product of which is more particularly suitable for outside markets, has been, until recently, restricted.

## CANADIAN POSSIBILITIES.

There are evidently many varieties of goods in steady demand in this and other countries which Canada does not as yet produce to any large extent, and yet for the manufacture of which the Dominion obviously possesses remarkable natural resources and facilities. A large proportion of Canadian manufacturers can naturally have no expectation of developing export trade, and many others have no wish to do so. On the other hand, some who would like an outlet for surplus production are not always in a position to establish such trade on a basis remunerative to themselves without the provision of special and extra facilities for dealing with foreign requirements.

Briefly summed up, the situation is that the Canadian manufacturer often offers one article and the outside demand is for another. The opinion has frequently been expressed by business men who have visited Canada for the purpose of endeavouring to arrange for regular supplies of goods in established demand that, in most lines, those manufacturers who possess the necessary organization for conducting export trade have invariably orders on hand in advance of their existing output capacity. Now however, that the question of export trade has assumed such importance, it can be reasonably anticipated that capital will be more readily available for developing such industries, and indeed the last year or two have witnessed several phenomenal instances of the development on a large scale of enterprises the product of which is largely destined for the world's markets.

## METHOD OF 'SPECIALIZATION.'

It is apparent that the method of 'specialization' so universally in vogue in the United States must be of great advantage in connection with foreign trade. The smaller population of Canada has hindered its adoption to any great extent but the reduced cost of production resulting from devoting the whole capacity of a plant to the production of a very few lines instead of running at odd times on a wide range of articles, must be

considerable. Great Britain is just beginning to awaken to the industrial possibilities of the Dominion, and the forthcoming visits to Canada of members of the British Parliament and of leading business men in connection with the Congress of the Chambers of Commerce of the Empire should be taken the fullest advantage of so that visitors may obtain not only a knowledge of existing enterprises but also an appreciation of the splendid opportunities awaiting the investment of British capital.

#### MINERALS AND METALS.

During the past few months a considerable volume of applications have come to hand from United Kingdom houses who import regular supplies of minerals and metals from various countries and are open to handle shipments from Canada provided that they can make the necessary arrangements. These inquiries have included Copper, Graphite, Felspar, Molybdenite, Charcoal, Calcium Carbide, Mica, Asbestos, Marble and Decorative Stones. A good and steady demand exists for most minerals of economic value which Canada is known to possess to a large extent. If Canadian owners of deposits of good quality and favourably situated as regards shipping facilities could locally obtain sufficient capital to place their property in the shipping stage, there can be no doubt that they could often arrange with people over here of financial strength to contract for their total output and often to take a financial interest in the venture.

#### ROOFING SLATES.

Quite recently a very favourable opportunity for developing trade in an article which Canada possesses to a considerable degree has come to my notice. There is in the United Kingdom a very large consumption of roofing slates, many of which are imported. At a time when roofing slates were practically not used in the United States, the quality of slate deposits in that country was so suitable that several quarries were developed and worked solely for export purposes. In 1896 the American slate trade with the United Kingdom amounted to some 46 million slates. Gradually, however, the utilization of roofing slates in building operations in America has been adopted, and between the domestic demands and the consequent increase in prices demanded by American slate producers, this export trade has steadily fallen away until at the present time it has almost ceased. Welsh slates, owing to labour troubles, have been also scarce, and United Kingdom buyers have been obliged to look temporarily to France for supplies. The French slate is inferior to American but it is cheaper. A company which has developed and established the trade in American slates in Great Britain applied to me for information as to the possibilities of being able to secure suitable supplies from Canada. Upon inspection of a number of samples of roofing slates from Canadian deposits, the expert informs me that the quality of the Canadian slate is very good and equal to, if not better than, the average American. The company, therefore, state that if they can arrange for regular supplies of the quality equal to that examined by them, they are prepared to contract for large quantities for which they would pay cash.

Provided that further investigation confirms the impression that large deposits of a suitable quality of roofing slate exist in Canada only awaiting development, the establishment of the industry would appear to offer a most profitable investment for capital which will, it is hoped, appeal to Canadian enterprise. The sizes most in demand here are 24" x 12", 22" x 12", 22" x 11", 20" x 12", 20" x 10", 18" x 12", 18" x 10", 18" x 9", 16" x 12", 16" x 10", 16" x 9", 16" x 8". They should measure 18 to 19 inches per 100 slates piled up in the flat. Quarrying is a fairly simple matter, the cost of the necessary equipment being less than in connection with most kinds of mining. As to labour, it is pointed out that a large number of experienced slate workers are at present idle owing to labour troubles in this country, and many would readily go to Canada for reasonable wages.

## CANNED AND PRESERVED GOODS.

Last autumn more Canadian gallon apples were to be seen in grocers' shops and elsewhere than ever noticed before, but there are still few signs that Canadian packers are doing any definite trade in other canned fruits and vegetables. One large firm here offered the opinion that Canadian canners would do well to specialize more and instead of each producing twenty or thirty different lines, confine their individual attention to half a dozen or less. This method apparently is adopted by some of the most successful American packers, with the result that the quality of the goods is better and more uniform, and the cost of production is reduced.

Reference has often been made to the very general prejudice against canned or tinned goods existing in this country, and a feature worth noting is the marked increase in both fruits and vegetables now being put up in glass, a trade in which quite a number of United Kingdom producers are participating. From inquiries made at the Grocers' Exhibition it was ascertained that such goods as peaches and pears have to be imported largely and it is a question whether Canada might not develop a trade in response to their requirements by shipping the fruit in large packages ready for the use of the British packers.

Another feature has been the large increase in the importation of Californian prunes and apricots which are now to be met with everywhere. The prunes in particular are being received with much favour and must be displacing a large volume of goods formerly imported from France and elsewhere. Great care evidently is taken in the selection and packing and although somewhat different in flavour, the prunes are finer and larger than the ordinary continental variety. These are both lines which Canada should be able to produce successfully and in large quantities, and the cultivation of the suitable varieties for this industry is a matter deserving study and careful consideration on the part of Canadian fruit-growers. Ontario is only half the distance from this country that California lies. Indeed the firm establishment of the prune trade in competition with older sources of supply possessing every geographical advantage is a distinct tribute to American enterprise.

The subjoined letter received from a leading firm of wholesale grocers since the above lines were written is of some interest :—

"I am sorry that I cannot report favourably of the progress of Canadian canned fruits and vegetables during the past year. I do not know that any particular section is to blame, but the trade generally has been very slow and without any special feature of interest. The high price of tomatoes, owing to the failure of the American crop last year, has improved the trade in Italian, French and other continental countries, but the supply of Canadian unfortunately was small. We hear from very good sources that the supply of American will be abnormally large, and it is probably a good time to warn your friends in the event of their expecting a continuance of present prices.

"The increase in the consumption of the dried varieties, such as apricots, pears, plums and prunes is an important pointer for growers, and the fact of Californian fruit, having in so short a time established a large trade, should be sufficient encouragement for Canadians to persevere in producing similar fruit. Of course, the continental countries may produce up to their usual quantities in the coming year, which will make competition for the business very keen, but the taste for Californian fruits seems to have now taken a deep root, and will require a good deal of shifting.

## OYSTERS.

In consequence of an inquiry made by a London firm possessing a considerable connection in the oyster trade, the possibilities of sending over Canadian oysters to this country were examined into. In view of the very high prices obtained for the most popular British natives, it would appear that a profitable market could be created for some of the Canadian varieties. Investigation shows, however, that a ready market exists already in Canada and the United States for all the oysters which Canada at present produces; indeed the demand is stated to be in excess of the supply. A con-

siderable advance in price has taken place in consequence, but even these enhanced values fall far below the level of British quotations. As Canadian oysters, however, differ both in appearance and flavour from the kinds in highest favour in the United Kingdom, it would as a preliminary be necessary to investigate, by means of trial shipments, the degree of popularity accorded to each particular variety. Should the results be satisfactory, the production of the oysters realizing the highest prices in this country ought to be capable of large development by the adoption of the scientific methods of artificial cultivation in general use at the leading European oyster beds. As matters stand, the Canadian oyster trade flows in certain established channels from which it will not easily be diverted.

#### RAILWAY SLEEPERS.

Some inquiries were made relative to the supplying of Canadian railway sleepers in connection with the construction of several new lines in the Transvaal and Orange River colonies. It is certain that extensive railway development will take place as the new colonies settle down, and it was felt that possessing such vast supplies of suitable timber, Canada should be able to furnish a proportion of the sleepers or ties which would be needed. The establishment of the direct steamer service will have given additional impetus to the matter, but the absence of any creosoting plant in Canada was primarily an obstacle of considerable weight.

#### DRAWING BOARDS.

An important stationery manufacturing firm desired me to inquire whether Canada could not furnish at least a portion of the considerable volume of drawing boards, &c., which they had been obtaining from continental sources. It would appear, however, that these goods are not produced at present to any extent in Canada.

#### CORRESPONDENCE INVITED.

This office is always pleased to hear from Canadian manufacturers and shippers who require preliminary information and advice about trade matters, and also from firms who may wish to take action in reference to the numerous applications from British firms who seek to develop trade in or with Canada.

I have the honour to remain, sir,

Your obedient servant,

HARRISON WATSON.

#### AUSTRALASIA.

#### REPORT OF COMMERCIAL AGENT.

(*Mr. J. S. Larke.*)

THE EXCHANGE, SYDNEY, N.S.W., March 24, 1903.

The Right Honourable  
The Minister of Trade and Commerce.

SIR,—Some rains have fallen during the month which have been productive of good results in many sections of all the States. Though the drought has not been broken the prospects are much better than at this time last year. In the larger portion of the agricultural areas the farmers are able to plough with a prospect of putting in the seed

in good condition. There has, in the favoured areas, been a growth of grass which is sufficient to carry the stock and, unless an extraordinary dry season is experienced, carry it over the winter with the minimum of hand feeding.

Business is necessarily restricted, but is as good as could be expected under the adverse conditions of the country. There are a considerable number of men out of work. The number is increased by the high rates demanded for money, which restricts government expenditure on public works. In some of the drought sections of this State and Victoria there is considerable distress and liberal funds have been raised for the relief of those who have lost their all and are unable to buy food.

#### EMIGRANTS INQUIRING ABOUT CANADA.

These unhappy conditions must lead to emigration and the inquiries, chiefly personal, at this office for information have greatly increased. A cable to the effect that the Premier of Ontario was taking steps to promote the immigration of 5,000 skilled mechanics into that province led to an offer of a party of 500 such men provided the Government of Ontario would prepay their passages and take a lien on their wages as security for repayment of the loan. I have replied that so far as I am advised neither the government of Canada nor of the Province of Ontario is offering inducements to emigrants from Australia, and to do so would not be regarded here as a friendly act. The regular steamers, I believe, for the next three months have all their passenger space bespoken. The large majority are going to Canada to settle on the land, and some have considerable capital, while others intend to seek employment on farms. In spite of the difference of climate and conditions they are likely to make a desirable class of settlers.

#### DEMAND FOR FLOUR.

The demand for known brands of Manitoba flour is good, though United States flour from Manitoba hard wheat is quoted lower and has a large sale. Unknown brands must fight their way into the market, and cannot secure the best prices until their reputation has become established.

#### WHEAT.

Importers have been speculating in wheat from the Pacific Coast states of the United States, India and Argentina as well as from Canada. The proportion of Manitoba is much below the amount expected. This is due to the difficulties in grinding, less value put on the bran, and the desire to get as cheap a grain as possible. It is believed that the quantities of soft wheats ordered is in excess of the demand, and a break in prices is confidently looked for. There is little Manitoba hard wheat in stock. The *Ansgar*, which left New York with 4,163 tons of Manitoba wheat and 750 tons of flour, has now been posted as lost. A little time ago, if hard wheat could have been obtained from Vancouver, it would have brought good prices, but nearly all the efforts failed, and the fair market price cannot now be got for future deliveries. This is due not only to the expectation of a fall from over-importation, but the unfortunate incidents connected with the Vancouver experiments.

Some little time ago a cable made an offer of a thousand tons of wheat, the recipients had purchasers quickly and cabled to Vancouver accepting the offer. Vancouver replied that the wheat could not be delivered and withdrew the offer. Some time afterward the Vancouver firm found it could get the thousand tons and repeated the offer, but the Sydney house could not get takers. At the same time several offers of wheat from Vancouver and a number of firms were seeking to place it. This led millers to think that a decline in price was about to set in and they refused to buy at the lowest figures offered. If, as I have advised, a Canadian firm had chartered the steamer on the best terms and placed an offer of the cargo with an agent here I think the whole would have been speedily disposed of. The offer of bits of the cargo to half a dozen people here simply set them competing with one another and stopped business.

These methods and the delays in supplying orders have very much discouraged direct shipments from Vancouver. Notwithstanding the heavy orders that have been placed for both wheat and flour, I think there will be a demand for Manitoba wheat for mixing, but the business will be done only by firms capable of handling cargoes.

#### NEW ZEALAND OATS CHEAPER.

New Zealand oats are quoted at twelve cents per bushel below the best prices I have from Canadian, and trade in this grain from Canada is over for the present. Some now on the water, through delays in shipment, will bring a heavy loss on the Australian buyers.

#### CANADIAN BARLEY.

I have endeavoured to secure samples and prices of barley and other grains, but none have reached me. I am informed that a cargo of Canadian barley has been purchased in New York, and a good sample lot in Vancouver.

#### FISH.

I have in previous reports pointed out the fact that Australia imports nearly a million and three-quarter dollars worth of fish, and that outside of canned salmon Canada gets a very small share of the trade. Some additional interest is being taken in salted and smoked herring, halibut, as well as salmon, and good samples have come here which it is hoped will lead to an increase in the trade. The business in fish in brine has had a repetition of the old trouble of the barrels and kegs leaking, the brine running away and the fish spoiling. No trade can stand this defect. If a trade is to be built up fish must be shipped to arrive here in condition. It is no value to have it in good condition when placed on board ship. It is essential that it reaches this port as sound as when it left.

#### TIMBER.

Notwithstanding the drought building operations have been brisk and the demand for timber good. British Columbia fir, known here as 'Oregon,' is now \$14 at the mill, instead of \$7.50 at which it was once sold. California redwood, sold largely for doors, sashes and inside work, has advanced nearly  $33\frac{1}{3}$  per cent in a year and is quoted at \$24 at the mill. Every now and then it has been proposed to introduce cedar and some of the cheaper timbers of British Columbia into this market, but no determined effort has been made. The market in timbers, as well as in other lines, is conservative and no demand for a new timber can be created in a day. The high prices now ruling affords an opportunity to introduce the Canadian, that may not occur again for a decade.

One of the timbers practically unknown here is the hemlock, and in connection with the cutting of that timber there would be a market for the extract of the bark. There is a prejudice against hemlock, tanned leather mainly on account of its colour and some poor samples of that tannage that have been offered on this market. Wattle, which is the Australian bark used for tannage, has gone up in price and as a result there is a demand for a cheaper tanning material. This demand is likely to continue for some time as the drought has killed a good many wattle trees and stopped the growth of more.

I have the honour to be,

Your obedient servant,

J. S. LARKE.

## JAMAICA.

## REPORT OF COMMERCIAL AGENT.

*(Mr. J. Eustace Burke,)*

KINGSTON, JAMAICA, April 14, 1903.

The Right Honourable

The Minister of Trade and Commerce.

SIR,—It is gratifying to be able to advise that, as predicted in my report of December 22 last, and also the one previous in which the opinion was expressed that official figures at the end of the financial year, viz., to March 31, 1903, compared with the previous year, would show a remarkable increase in the exports of this colony to the Dominion of Canada, has been fully realized.

## GROWTH IN THE FRUIT TRADE.

The statistics to the date mentioned above are not yet obtainable, but I have gathered that for the eleven months to February 28 last, as compared with the previous eleven months, while the exports of bananas for the 1901-2 period was but 7,955 bunches, that for 1902-3 is represented by no less a number than 72,531 bunches. The quantity of oranges also shipped to Canada doubled her former demand for the similar period. When one takes into consideration the multiplicity of drawbacks referred to from time to time in my several reports regarding transportation facilities, the remarkable increase is indeed surprising.

## THE PROPOSED SUBSIDIZED STEAMERS.

I have had two interviews with the Hon. Sydney Olivier, C.M.G., the Colonial Secretary, regarding the above subject. Mr. Olivier sails from hence on the 20th prox. for England, via the United States and Canada, on leave. It is understood that Mr. Olivier, while in Canada, will obtain all necessary information which would warrant this government complying with the terms of the resolution recently unanimously adopted in the Legislative Council of this colony, appropriating £2,500 for an improved steamship service with Canada. I may add that, as in all other measures concerning the welfare of this colony, the Colonial Secretary is deeply interested in the subject, and, I am persuaded, will do all in his power to achieve the desired end to the mutual benefit of both colonies.

Business men and agriculturists seem almost impatiently awaiting the consummation of the idea, if I am to be guided by the eager inquiries being continually made to me regarding development of the situation.

## OUTLOOK OF THE ISLAND'S PROGRESS.

Latest available figures unmistakably demonstrate that there has been a general all-round increase of exports of the island's produce, as compared with the previous eleven months to the 28th February last.

## BANANAS.

Last year we exported to the United Kingdom 956,711 bunches of bananas, being an increase of about one-third. The United States figures stand at 12,546,936 bunches, as against 9,397,505 for the similar period of the previous year, and to all other countries (Canada has already been dealt with), 5,204 against 3,165.

## ORANGES.

The eleven months before, 80,998,387 was exported, while a similar period for 1902-3 is represented by 98,595,237, an increase of nearly 18,000,000, which shows a steady advance. Of the above numbers the United States took 84,640,587, as against 69,522,155; the United Kingdom, 6,048,450, a decrease of about one million, and, as previously stated, Canada's direct trade doubled.

## COFFEE.

As in fruits, so in coffee, the United States was the island's principal customer. Of the 98,261 cwt. shipped as against 87,469 of the previous period, the United Kingdom took only 18,639 cwts., a smaller proportion being divided among other countries.

## SUNDRIES.

There has also been a considerable increase in the export of cocoa, cocoanuts, grape fruit, ginger, pimento and rum; and sugar has also made a slight step in advance. The demand for pine apples has not been maintained, while dyewoods also show a decrease.

## IMPORTS AND EXCISE.

As most likely to be expected, the imports of the colony also show an all round-steady increase, while the excise collections on rum, cigars, cigarettes, &c., have given a very substantial increase of revenue on previous years.

## REVENUE.

At the commencement of the financial year 1902-1903 the estimated revenue was placed at £350,000. Later developments, however, warranted a revised estimate for £375,000, while on March 31 last, which is the close of the financial year, it stood at £380,000, being a very appreciable increase on its immediate predecessors.

## CANADIAN VISITORS.

I am pleased to be able to state that Canadian visitors arrived in marked increased numbers, among whom were several business men, most of whom called and had several interviews with me on various points of commercial and agricultural interests. To many the manifold resources of the country and the possibilities of a lively exchange of commodities between Canada and Jamaica were a complete revelation.

## INCREASED CORRESPONDENCE.

Correspondence from all parts of the Dominion, as also from local country districts here, is increasingly heavy, seeking inquiries on Canadian matters, but no one ever goes without the fullest information, and I have substantial reasons of entertaining great hope of appreciable mercantile and agricultural developments between the two colonies in the near future.

## CHAIRS, FURNITURE, ETC.

An Ontario furniture company, through a local firm which has been appointed sole agent, has recently been making quite heavy shipments to the island, doing a remunerative business. There is certainly room for others in this and other lines of Canadian manufacture.

## TENDERS FOR FLOUR.

For the first time I think in the history of the colony the military authorities in advertising for tenders for the supply of baking flour for His Majesty's troops stationed here have invited local tenders for Canadian as well as United States millings. Samples with brands have to be submitted, but in consequence of the irregularity and delay in filling orders at Canadian points, it is hardly probable the local contractor will refer to the Canadian article in making his bid. The penalties of the contract have to be counted with.

## GOODS NOT UP TO SAMPLE.

In my December report I made mention of the fact that the local firm handling two Canadian brands has been very successful in placing them. The agent, however, *bitterly* complains of the drawback above referred to, as also the system of supplying grades not corresponding with order. This certainly should not exist, and there is no excuse for such unbusinesslike methods.

I have the honour to be, sir,

Your obedient servant,

G. EUSTACE BURKE.

## NORWAY, SWEDEN AND DENMARK.

## REPORT OF COMMERCIAL AGENT.

(*Mr. C. E. Sontum*).

GRUBBEGD No. 4, CHRISTIANIA, NORWAY, April 7, 1903.

The Right Honourable  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—The correspondence carried on with Canadian manufacturers and exporters have been livelier during the past few months than for a long time before, and it has resulted in, that I now have several sample shipments on the way, and I have good hopes of coming to business at least with some of the firms.

As I have mentioned before, Canadian manufacturers are getting highly esteemed in these countries, and where the prices are not prohibitive, I have now no difficulty in obtaining orders. At present, however, the times are not very encouraging, and the wholesalers are not placing large orders, but are only buying for the nearest future. Much depends now on how the present fisheries turn out, as with these, in many parts of Norway business stands or falls.

## HERRING FISHERY.

The fat herring fishery may now be considered finally over with a return at the end of the season of 232,000 barrels, against 166,000 in 1901. For the spring-herring fishery, prospects are very promising notwithstanding the stormy weather, which has prevailed almost continuously for the past couple of months. As to the cod-fisheries, the weather has greatly interfered, and the outlook is a gloomy one at present.

## IRON COMBINE.

The following may be of interest : Two large Swedish iron ore mining companies, owning the well known iron ore deposits in Swedish Lappmarken, are probably going to be amalgamated as the 'Trafikaktiebolaget Grängesberg-Oxelösund' has made a preliminary contract for the purchase of the controlling influence in the said two companies. The business, it is reported, has been arranged on the basis of a value of 50 million kroners or nearly £3,000,000 for the two ore deposits. The contract is now to be submitted for the approval of the shareholders in the Grangesberg-Oxelösund Company. As this last named company is the proprietor of the largest iron ore deposits in middle Sweden, the transaction will create a practical monopoly of the important iron ore deposits of Sweden.

## WOOD TRADE.

As to the wood trade, it may be said that the market is in a very healthy condition at present. Inquiries for large shipments for Cape, at improved prices have had to be declined by shippers here on account of the difficulty of supplying desired specifications. Sales are going on regularly to England at the full prices £9-10-0 for mixed and £11-10-0 for reds c. i. b. cheap ports, which prices have now come to be accepted as the value for the season.

## WOOD PULP.

Of wood-pulp there can not be full production for another four or six weeks on account of the water supply. The market for mechanical remains unchanged, and buyers hold back in hope of obtaining very cheap supplies, while sellers are determined to get prices, which shall leave a moderate profit. Cellulose is somewhat better than some time ago, as the American demand has helped to clear away stocks.

## HARVEST YIELD.

In the official report recently issued by the Agricultural Department of Norway on the harvest yield in 1902, the final returns show the following per centum shortage of the crop all around :—

## MARKET FOR CANADIAN BREADSTUFFS.

Considering that with the exception of hay, also in regular years considerable of all of these products have to be imported, there is going to be, until a new crop comes in, a very large import of feed and breadstuffs. Even if the coming harvest yields good, it will not be able to balance the shortage of last year, and we may look for a continued import for some time to come.

I have the honour to be, sir,

Your obedient servant,

C. E. SONTUM.

## TRINIDAD AND TOBAGO.

## REPORT OF COMMERCIAL AGENT.

*(Mr. Edgar Tripp.)*

PORT OF SPAIN, TRINIDAD, April 23, 1903.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—The map showing the steamship routes between Canada and the British West Indies issued by your department is much appreciated, and the copies which you were good enough to forward have been distributed and now are seen prominently in most of the leading offices and stores.

## PORT OF SPAIN RIOT.

The recent unfortunate riot in Port of Spain has had a most disturbing and depressing effect upon trade, of which all classes of dealers are complaining. Whoever may be at fault, it is most lamentable to reflect upon the loss of life and property which occurred. Apart from the value of the public buildings and furniture, approximately £60,000, there was the irreparable loss of the official records of the colony since 1797 when it first came under British rule. The whole of the maps and plans in the Crown Lands Office, showing the disposition of all lands alienated, were destroyed, and there cannot possibly be sufficient duplicates elsewhere to replace them. All the Court records of past and existing litigation were also burned, and the confusion and inconvenience arising may be understood. The people of Trinidad have hitherto been so easily managed and law-abiding that it is difficult to account for this sudden outburst of unbridled frenzy. The inevitable result must be the putting back of the Colony for no inconsiderable time.

## TRADE WITH THE UNITED STATES.

Direct trade with the United States by the three large steamers of the Trinidad line of late has been rapidly increasing, so much so that they hardly have been able to cope with it, and it is now announced that some steamers of the Italian Royal Mail Steamship Company will be put upon the route and leave monthly touching only at Barbados.

## THE MANJAK INDUSTRY.

The rapid development of the Manjak industry will afford to this line, which appears to have offered special inducements to secure it, a fair proportion of freight. The first steamer will carry away some three hundred tons of this new product of our mines, in addition to shipments of about 200 tons by other opportunities about the same time. Up to very recently it was believed that Manjak was only applicable to the manufacture of high class varnishes, and the demand, like the supply, was limited. It was said, and on more than one occasion proved to be the case, that 50 tons at any time would flood the market, but since the discovery of the extensive mines of this article here, and the certainty of a regular and large supply at a moderate price, other uses it appears have been discovered for it, and a single order for 5,000 tons to be taken within one year has just been placed.

## A SUBSTITUTE FOR INDIA RUBBER.

This, it is understood, comes from a firm who believe that in Manjak there will be found a marketable substitute for India rubber, and who have erected a special plant for its treatment. This matter is one which might be well worth the early attention of any of your manufacturers interested in the production of insulating material, and I should be very pleased to forward samples for experimental purposes to any one desirous of having them. So far no Manjak that I can hear of has been shipped to Canada, although sales to both the United States and Europe are rapidly increasing.

## PROGRESS OF TOBAGO.

I am pleased to report the continued steady progress of our small dependency, Tobago. Cultivation there is being opened up in every direction, and the conditions of trade, which but a few years ago were so much depressed, are now slowly but surely being restored.

## CANADIAN COAL FOR TRINIDAD.

During the past few months when men of war of all nationalities have been much in evidence the capacity of the Port of Spain as a coaling station has been somewhat severely tested, but on no occasion has the supply failed or have the rates proved to be excessive. As before stated, there is no reason why Canadian coal should not have its share of this market, the greater part of which is now supplied from the United States, and the balance from Great Britain.

I reserve comment upon general trade pending the issue of the yearly statistics of the Customs expected daily.

I have the honour to be, sir,

Your obedient servant,

EDGAR TRIPP.

## SOUTH AFRICA.

## REPORT OF COMMERCIAL AGENT.

(*Mr. James G. Jardine*).

P. O. Box 1232, CAPE TOWN.

The following report from Mr. Jardine is written from Bulawayo, Rhodesia, under date of April 4, 1903 :—

The Right Honourable

The Minister of Trade and Commerce,  
Ottawa, Canada.

SIR,—Since my last communication from Bloemfontein, I am able to state that a customs union has been agreed upon, and also a railway agreement has been concluded. The customs convention was signed on the 24th ult. by the representatives of Cape Colony, Transvaal, Orange River Colony, Natal and Rhodesia. The intransit dues have been abolished and it is agreed that the convention and the agreement shall be ratified by the legislatures of the various colonies and that the parliaments of Cape Colony and Natal and the legislative councils of the Transvaal, Orange River Colony and Rhodesia shall be called together in special session for that purpose.

## LIBERAL TARIFF EXPECTED.

I am informed by parties who know what they are talking about that the tariff will be a much more liberal one in respect of all kinds of foodstuffs. Flour and wheat are especially favoured. A preference of 10 per cent has been arranged in favour of the mother country and her colonies as against the rest of the world.

## RAILWAY RATES REDUCED.

As regards railway rates, sweeping reductions have been made and as a result the cost of living throughout South Africa will be greatly reduced.

## DETAILS NOT YET PUBLIC.

The details of the convention and the new tariff will not be made public until submitted simultaneously to the legislatures of the several colonies and therefore is not likely to come into force for six months.

## PROPOSED COMMONWEALTH OF SOUTH AFRICA.

A resolution was also passed unanimously by the united delegates before separating expressing the hope that the day may not be far distant when it may be possible to summon a conference to endeavour to provide for the union under one federal administration of the whole of the colonies under British rule, and the establishment of the commonwealth of South Africa. No more important congress of representative men ever before met in South Africa, and these gentlemen have rendered yeoman service to their country, sinking race jealousies and adopting a conciliatory attitude one towards another after the example of the Right Hon. the Secretary of State for the Colonies in his wonderfully successful visit to South Africa. Their conclusions open up a new chapter for South Africa.

## CANADA'S REPRESENTATIVE WELL RECEIVED.

On my way to Rhodesia I spent several days in Kimberly and Mafeking. I have been most kindly received here as elsewhere by all classes of people. At present business is very dull and stocks are large owing to the serious drought in Orange River Colony and around Kimberly; but now that customs and railway rates are placed on a more liberal basis by the customs union, importers are under the impression that Great Britain and Canada will largely benefit by increased trade in the near future.

## CANADIANS IN SOUTH AFRICA.

There are several Canadians in Kimberley and Bulawayo, with such familiar names as Redpath, McCallum, Graham, James, Ramsay, &c., all of whom are highly respectable citizens of these towns. In company with some of them I visited the battlefields of Paardeberg and stood by the graves of Canadian heroes whose names ought to be graven "as with the point of a diamond" on the hearts of every Canadian boy and girl. These dear lads asleep on the African veldt and their comrades still spared to us have, in my opinion, done more to advance the claims of the Dominion in the "dark continent" than a thousand Canadian agents or missionaries could do in 50 years.

## ARRIVAL IN RHODESIA.

Having only just arrived in Rhodesia I will defer expressing any opinion of this province and its commerce from a Canadian standpoint until I have spent a little time visiting its principal business centres.

I have the honour to be, sir,

Your obedient servant,

JAMES G. JARDINE.

CANADIAN CHEESE.

SUGGESTIONS TO THE TRADE IN CANADA UPON PROPER METHODS OF EXPORTING.

The Right Hon. Lord Strathcona, under date of April 6, forwards the subjoined report to the Department of Trade and Commerce. The report was made to the High Commissioner by the cheese committee of the Home and Foreign Produce Exchange.

QUALITY.

‘Fewer complaints than usual have been made this season of the quality of Canadian cheese. Speaking generally, it may be said that the average shows a distinct improvement over previous years. This may be due to some extent to the climatic conditions prevailing during the cheese making season. Temperature plays an all-important part in the making and curing of cheese, and due emphasis should be given to this point. Markets, too, have not been such as to lead to accumulations of stocks, giving time for flavour to develop. But after making allowances for these considerations, the fact remains that Canadian cheese has shown a higher degree of quality this season, and it will be for the farmers to see that this is maintained.

BOXES.

‘The condition of the boxes still gives rise to comment. Exceptionally heavy cheese have not been coming forward in anything like the same number as they were,

and the boxes should have proved sufficiently strong to carry this year's lighter weights. There is still room for improvement. The lids appear to be strong enough, but it is essential that the hoops or sides should be made stouter.

#### MARKING OF WEIGHTS.

'The old fashion of scribbling the weights upon the boxes with a pencil is gradually falling into disuse, and the more practical method is employed of marking weights either with stencil or rubber stamp. Here and there the antiquated system is still adhered to, but it is hoped that by the time this committee makes its next report the practice will have died out altogether.

#### CARRIAGE.

'On the whole the steamship companies have done their work well and have shown themselves more alive to the peculiar requirements of this class of traffic. An agitation was set on foot some time ago in favour of the installation of cool air ventilators on vessels carrying cheese from Montreal to London. Ship owners obtained promises of support from importers, and several vessels were equipped with the necessary apparatus. As a consequence, an extra freight charge of 10s. per ton was imposed, but it was felt that the advantages would outweigh the cost. The experience of the past year, however, has not been such as to convince importers that any benefit whatever has accrued. Indeed instances have not been wanting to show that cheese carried in the ordinary manner and in the same vessel, have turned out better on arrival. It may perhaps be urged that it is not altogether a fair test owing to the exceptionally cool weather prevailing last summer, and that under normal circumstances the advantages would become more apparent. A further trial will be given of the system during the coming season, but unless better results are forthcoming importers will not be prepared to give it their support. That it ought not to be difficult to prove the advantages is exemplified by the very satisfactory way in which New Zealand cheese is carried in vessels fitted in a similar manner.

#### PARAFFINED CHEESE.

'Some interest has been excited by the experiment being carried out in Canada, of coating the outside of cheese with paraffin wax. This is done shortly after the cheese is made, and its effect is to prevent the moisture from exuding, which would lead to loss in weight. To this extent makers gain by the process, but judging by the quality of the comparatively few cheese that have come forward, the effect of paraffining is also to retard those necessary actions which allow the cheese to mature and to become solid. Instead of the moisture evaporating gradually and naturally, it is retained in the cheese, and adversely affects the flavour. This is distinctly noticeable, and would become more pronounced with long keeping. Importers, therefore, are far from impressed with the desirability of continuing the treatment. Further, the practice is open to another grave disadvantage, as the cheese have no rind and remain soft on the outside. Not only are the goods thus likely to go out of condition, but should the boxes containing these cheese become broken in transit, there would be every probability of the cheese itself being damaged, and in any case, the risk of handling is very largely increased. In these circumstances the verdict of the trade here must be taken as adverse to a continuance of paraffining.

'Signed by order and on behalf of the cheese committee.

'C. S. HIGGINSON,

'Secretary.'

IMPORTS.

The value of the total imports of merchandise, exclusive of Inter-Settlement trade, was for the calendar year 1901 \$283,093,003 as against \$279,861,571 for the previous period 1900, showing an increase of \$3,231,432, but when compared with the year 1897, the increase in the importations for 1901 shows much larger, the increase

over the year 1897 being \$95,575,976. The increase, by countries, in the value of the imports of \$95,575,976 and \$3,231,432 was distributed as below :—

Thus it will be observed from the above table that the value of the imports from Great Britain was for 1901 \$30,594,749 as against \$29,398,636 for 1900, representing an increase of \$1,196,113 ; for the same period the imports from British possessions were for 1901 \$70,592,327 as compared with \$71,230,801 in 1900, a decrease of \$638,474 ; while the value of importations from foreign countries was \$181,905,927 during the year 1901, showing an increase of \$2,673,793 over the previous year. The value of the imports from Canada for the year 1897 was \$12,350, 1898 nil, 1899 \$80, 1900 \$280, and for 1901 \$4,748, whereas the importations from the United States were for the year 1897 \$576,022, 1898 \$962,203, 1899 \$1,331,875, 1900 \$1,875,195, and for 1901 \$1,361,062.

#### FOODSTUFFS, LIVE ANIMALS, DRINKS AND NARCOTICS.

The value of the total imports under this head was \$114,199,640, for the calendar year 1901, as compared with \$87,439,150 in 1897, \$93,565,512 in 1898, \$97,237,101 in 1899, and \$109,916,789 in 1900, showing a substantial increase over the preceding periods. Importations of animals living, fish, rice, spirits and sugar show increases in value, while small decreases are noted in the importations of curry stuff, flour of wheat, malt liquors, provisions, wines, tobacco and other minor items. Coffee shows a considerable falling off, the decrease in value being about \$750,000.

#### RAW MATERIALS.

The value of the raw materials imported into the Straits Settlements for the year 1901 shows a decrease of \$266,903 over the year 1900, the value of the imports for 1901 being \$112,547,885, for 1900 \$112,814,788, and for 1899 \$99,166,787. Some of the principal items of import are, coals, raw textiles (such as cotton, hemp and silk), tin and oils.

#### MANUFACTURED ARTICLES.

The imports of manufactured articles for the year 1901 were \$66,062,642, and for 1900 \$67,663,075, representing a decrease of \$1,600,433.

(a.) TEXTILES MANUFACTURED.

The value of manufactured textiles imported in 1901 was \$39,735,834, of which amount cotton goods are responsible for \$23,534,519. The imports of cotton goods for the years 1897-8-9-1900-1901 were as follows :—

#### (C)—OTHER MANUFACTURED ARTICLES.

The importations under this head also show substantial increases. In the year 1901 the value of the imports was \$17,202,252 as against \$11,847,181 in 1897; \$13,258,464 in 1898; \$15,369,068 in 1899, and \$16,854,789 in 1900. The leading items of imports consist of carriages, bicycles, cement, cabinet ware, clocks and watches, explosives, earthenware, fancy goods, glassware, leather manufactures, paints and dyes, musical instruments, paper and stationery, soap, soda, &c.

#### EXPORTS.

The total value of exports of merchandise, exclusive of Inter-Settlement Trade, was for the year 1901, \$245,069,572, showing an exceedingly large increase over the preceding periods, 1897 to 1900, the increase over the year 1897 was \$83,733,171; 1898, \$60,099,051; 1899, \$29,187,665 and 1900, \$5,448,950.

The increase in the export values for the year 1901 as compared with 1900 representing a value of \$5,448,950 is accounted for under the head of live animals, foods, drinks and narcotics and manufactured articles, while raw materials show a falling off.

## FOOD ADULTERATION IN PORTO RICO.

NEW LAWS AND REGULATIONS TO GO INTO FORCE ON JULY 1ST, 1903.

The British Consul at Porto Rico has forwarded the following copy of a communication to the Department of Trade and Commerce for general information :—

DEPARTMENT OF THE INTERIOR,

Office of the Superior Board of Health of Porto Rico,

SAN JUAN, P.R., April 29th 1903.

To the British Consul,

San Juan.

SIR,—I have the honour to inform you that the new laws and regulations as to food adulterations will go into force on July 1st, 1903, and that one of the leading features of these regulations is the necessity of correctly marking in Spanish the nature and quality of all food supplies. It is not intended to require the specification of purely trade names, many of which cannot be translated, but it will be insisted by the Board that every label shall be of such a nature that there can be no deception of the purchaser.

All articles sold as "Pure" must strictly conform to the standards of the Board, and all articles of a compound or artificial nature must be marked plainly in such a way as to indicate their real nature.

It is therefore respectfully requested that you will take immediate steps to notify as fully as possible the exporters of food products as to the requirements of the law.

Copies of the laws and regulations will be furnished from this office on demand.

Very respectfully,

(Signed) R. M. HERNANDEZ, M.D.,

*Director of Health.*

### AN ACT TO IMPOSE AN EXPORT DUTY ON PINEAPPLE PLANTS.

(Assented to 14th May, 1902.)

I. This Act may be cited for all purposes as "The Export Duty Act, 1902."

II. In this Act the words "Pineapple Plants" means slips, suckers or tops of pineapples to be used for purposes of planting.

III. There shall be levied and paid to the use of His Majesty his heirs and successors in aid of the Government of these Islands an export duty at and after the rate of ten shillings for the first hundred and an additional ten shillings for every hundred or part of a hundred of pineapple plants that may be hereafter exported from these Islands.

\* \* \* \* \*

VI. This Act shall continue in force for two years from the passing hereof and from thence to the end of the then next Session of Assembly.

### III.—COMMERCIAL AGENCIES.

The undermentioned Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

The Department of Trade and Commerce also invites correspondence from Canadian exporters or importers upon all matters pertaining to trade, and will cause special inquiries to be made by the Commercial Agents into any subject of general interest when so desired.

Such reports as have been received since the publication of the last monthly report of this department are appended.

These reports will be sent free to points in Canada upon application to: "THE DEPARTMENT OF TRADE AND COMMERCE, OTTAWA."

AUSTRALASIA.

REPORT OF COMMERCIAL AGENT.

(*Mr. J. S. Larke.*)

THE EXCHANGE, SYDNEY, N.S.W., April 20, 1903.

To the Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—The past months have been characterized by some good rains. Many sections still suffer from drought and in agricultural areas some of the land is too dry to be ploughed. The prospects are, on the whole, favourable and promise feed for the stock. As the result the price of flour, wheat and nearly all lines of produce is lower. Manitoba flour is quoted at £12.10s. as against £13.10s. for flour in store a month ago. There is just now no market for wheat at a price at which it can be imported. Millers would rather sell than buy and transactions are reduced to a minimum. The demand for flour from Manitoba hard wheat will continue, and later there may be a demand for some hard wheat.

CANADIAN HOGS TOO HEAVY.

Nearly all lines of produce are affected. It is doubtful if butter can be shipped at a profit in June from Canada as was anticipated. The market for frozen hogs has been over-supplied for the moment from Chicago, though the demand is likely to continue. The hogs from Canada are too heavy and too fat for the butcher, and the average one also too heavy for the bacon curers.

NEW ZEALAND OATS CHEAPER.

New Zealand oats have possession of the market at a price which renders it impossible to import Canadian, which will not bring within 3d. per bushel of good New Zealand. The Canadian appear mixed Danish and Tartarian, and not too clean. This prevents their being sold for seed for which there is a demand. The New Zealand is the old Canadian potatoe oat with a full body. It is possible there may be some demand for milling oats in November next; but the milling oats which arrived here by the ship *California* were very disappointing in quality, and it will be difficult to get oatmillers to place orders unless at figures much below the present quotations. Hulled oats sent here have been of good quality and given satisfaction.

WHEAT AND FLOUR SITUATION.

A well-recognized authority has summed the situation at the middle of this month as follows :—

|                                    | Requirements.<br>Bushels. |
|------------------------------------|---------------------------|
| New South Wales.....               | 8,000,000                 |
| Victoria.....                      | 5,000,000                 |
| Queensland.....                    | 2,500,000                 |
| Western Australia.....             | 1,000,000                 |
| Total.....                         | 16,500,000                |
| Less South Australian surplus..... | 3,500,000                 |
| Net requirements.....              | 13,000,000                |

As against these needs, the imports up to date at Sydney and Melbourne have been as follows :—

|                          | Bushels.  |
|--------------------------|-----------|
| Sydney imports, net..... | 2,429,872 |
| Melbourne imports.....   | 1,139,587 |
| Total imports, net.....  | 3,569,459 |

The quantities of wheat either afloat, loading, or ordered for Australian ports are as follows :—

|                         | Bushels.  |
|-------------------------|-----------|
| From Argentina.....     | 2,899,200 |
| From San Francisco..... | 1,529,600 |
| From Oregon.....        | 2,616,000 |
| Total.....              | 7,044,800 |

These figures represent wheat only. In addition there is a quantity of flour to come forward. Exactly what this quantity is it is difficult to say, but no doubt it will go far to make good the two and a half millions of bushels that the above figures show still to be deficient. The following summary may be made :—

|                       | Bushels.   |
|-----------------------|------------|
| Already imported..... | 3,569,459  |
| To arrive.....        | 7,044,800  |
| Total supplies.....   | 10,614,259 |
| Requirements.....     | 13,000,000 |
| Deficiency.....       | 2,385,741  |

This deficiency should be reduced by the amount of the arrivals at Queensland ports and by the quantity of flour on the way or ordered. It would thus seem that the quantities of grain and flour already ordered are ample for many months to come, if not for the entire balance of the season.

This is only approximation. The South Australian surplus is given at half a million more than the estimate of the Government of that State, and the imports given must include grain and flour from other Australian ports which should not be included. The estimate of flour and wheat on order is made up from the reports of interested people and it is not possible to get them accurately. Something of the grain yet to be bought will depend upon the harvest of next season. If it promises to be good the local stocks to the last bushel will be used before the new wheat can come into the market. Certainly, there is no demand for wheat and but little for flour at the present moment, but in three months there is likely to be a movement for hard wheat from Vancouver if it be possible to get it at the right price.

#### DROUGHT LOSSES.

The returns are coming in which give a fair estimate of the losses by drought last year. The stock returns at the end of the year for three years were :—

|                   | December, 1900. | December, 1901. | December, 1902. |
|-------------------|-----------------|-----------------|-----------------|
| Sheep.....        | 40,020,506      | 41,857,099      | 27,114,587      |
| Lambs, marked..   | 5,299,453       | 10,457,696      | 2,870,288       |
| Cattle (all)..... | 1,983,116       | 2,047,454       | 1,735,257       |
| " dairy only....  | 420,148         | 417,835         | 351,027         |
| Horses.....       | 481,417         | 486,716         | 448,850         |
| Pigs.....         | 256,577         | 265,739         | 192,662         |

Not taking into account the rise in value of the remaining stock it would show a loss of forty million dollars. The deficiency in the grain crop is placed at over thirteen million bushels, a loss of nine million dollars. So far the exports of wool have fallen off by 180,000 bales, another ten million dollars to add to the reduced output of hay, dairy products, fruit, &c. Allowing for increases in value the net loss can well be put at fifty million dollars. And this is in comparison with a year that itself was simply one of the best of several drought years. The full returns for Queensland are not yet available, but will be in about the same proportion. Victoria also suffered, but not to the same extent. The other States were rather advantaged. The South Australia harvest of wheat and hay was about twenty per cent below that of the previous year, but in value it was worth nearly seventy per cent more. The export of wool from Australia for the past nine months of the wool year shows three hundred thousand bales less than that for the same period last year. The difference in value will not be nearly so great. The shipments from New Zealand show an increase of nearly fifty thousand bales.

#### BUSINESS IMPROVING IN QUEENSLAND.

As the result of the more favourable season business is improving and is considerably brighter in Queensland. Notwithstanding the losses of the past years, if better seasons set in, the recovery will be rapid, and there is little fear of the financial crisis that some feared.

#### PUSHING CANADIAN TRADE.

Canadian manufacturers are showing a renewed interest in this market, and intimate that shortly they will be able to undertake business here. The most vigorous attempt yet made to place the better classes of Canadian furniture on the market has just begun. The samples are very attractive, but the effort has been marred by a considerable percentage of the shipment being damaged by bad packing and bad handling *en route*. Several of the cases were broken, which is not unusual by the New York route. It is hoped that direct shipment from Montreal will make an improvement in this direction, but many of the lines were broken where the cases were whole and failed to show signs of rough handling.

#### GOODS BADLY PACKED.

The only conclusion is that the goods were badly packed. I saw copies of the shipping directions given to the Canadian exporters. They were specific and full, but unfortunately had not been strictly observed. Not only are the goods on arrival practically useless as samples, but arrival in bad condition is a great obstacle in the way of securing trade. Importers very naturally object to give orders where there is a fear of goods not arriving in proper condition. I am not sure that the experiment even under the active management it has, can be a great success.

#### BULKY GOODS HARD TO PACK SECURELY.

The heavy freight and duty and the damage that under the very best conditions that must ensue in shipping, will, I fear, make the trade unprofitable for bulky goods. There is, I am persuaded, a large field for export of these goods machined and fitted, shipped in the knockdown and put together and finished here. There is now a trade in frames and other partially completed forms which Canadian manufacturers should exploit and secure. Some of the designs are not suitable to this market. Wardrobes are in larger demand here than in Canada. Those sent from Canada are in one piece, following the United States pattern. The English and French, even in the small sizes, have base, body and top in distinct parts, and in the larger sizes, the body is in three pieces. The ease with which the latter are handled gives them the preference.

## INQUIRIES ABOUT CANADA.

The request for information respecting Canadian lands for settlement continue unabated and come from every part of Australia. The steamers have their full capacity taken in advance.

I have the honour to be your obedient servant,

J. S. LARKE.

## FRANCE.

## REPORT OF COMMERCIAL AGENT.

(*Mr. Anatole Poindron.*)

101 RUE RÉAUMUR,  
PARIS, May 15, 1903.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

## POOR CROP PROSPECTS.

SIR,—Crop prospects do not look so well owing to excessive frosts and rains. The price of bread has advanced owing to the high quotations prevailing for wheat and flour. Such high quotations do not appear to depend upon prospects of short-home supply, but principally, upon the impossibility to mill the grain kept in ricks on the fields, owing to the continuous rains. Frosts in the last part of the month have also greatly injured, in many districts, potatoes, beans, peas, rye, fruit trees and vines. The damage done to fruit trees cannot be recovered, and the short supply contemplated will offer an excellent opportunity for Canadian green apple packers, dried apples, peaches and apricot packers and fruit canners to try to get an important and paying trade on the French market.

## THE LUMBER TRADE.

A large development of the lumber and timber exports to France could be obtained if Canadian exporters were to appoint direct agents in France. In fact the most important of them are dealing with France through the firms in England that they have entrusted with their general agency for United Kingdom and the continent. In spite of the reason of which I am aware that Canadian exporters could state, in favour of their present organization as to exports of lumber and timber to Europe, I am afraid the Canadian export trade of lumber to continental Europe in general, and specially, to France will develop at a slow rate until they try direct connections with agents in continental European countries.

As regards France, the agents of Canadian exporters in the United Kingdom have to give to their own representatives in France a part of their commission, and they feel inclined to work preferentially the English market at full rates of commission.

On the other hand, their representatives in France give also their preferences to business done at full rates of commission and as they are generally entrusted with direct agencies of exporters from other foreign countries, like Baltic countries, United States and others, and as they are often born in such foreign countries, they carry the Canadian lumber import business in France with less care and energy than Canadian or French direct agents would do.

As to square timber, oak, birch, maple, elm, ash, are in very large demand in France. Oak planks and flooring, maple flooring, pine deals, staves and blocks could get a largely increased trade. As to spruce deals, in Paris, Rouen, Le Havre, Alger, Oran, Marseilles, the size 3-in. x 9-in. look the largest demand with an approximate proportion of 3-in. x 8-in. and 3-in. x 7-in. specified by every order. Quality—1st, 2nd, and 3rd Quebec—Average, 2nd Quebec. Average length 14 feet.

In Bordeaux and Nantes, the demand is chiefly for 3-in. x 7-in. and an approximate proportion specified by the orders of 3-in. x 9-in. and 3-in. x 8-in. Quality—1st, 2nd and 3rd Miramichi and Quebec—Average 2nd Miramichi and Quebec. Average length 14 feet to 15 feet. Important deal ends orders 6 feet to 9 feet would be also available in all of the places referred to.

I have the honour to be, sir,

Yours respectfully and faithfully,

A. POINDRON.

## ST. KITTS, NEVIS AND VIRGIN ISLANDS.

### REPORT OF COMMERCIAL AGENT.

(*Mr. S. L. Horsford.*)

ST. KITTS, WEST INDIES, April 30, 1903.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—Trade with Canada has not only been fully maintained, but so far as our exports are concerned, there has been a very marked improvement during the last two years.

### SUGAR SHIPMENTS TO CANADA INCREASING.

While hitherto the bulk of our sugar has been shipped on consignment to New York, and only comparatively small parcels have been forwarded to Canada for sale, during the last and present seasons the conditions have been entirely changed. Last year nearly 54 per cent of our sugar was shipped to Halifax against 36 per cent to New York and only 7 per cent to the United Kingdom, while this year the Canadian proportion promises to be very considerably increased, and the capacity of the subsidized steamers is being taxed to the utmost to find space for the ever increasing demand. This is extremely satisfactory, and should the existing conditions continue, there is every hope that the trade thus established will prove to be a permanent one. As, however, the Halifax market is regulated almost entirely by that of New York, the price paid by the refiners there being in fact the New York price of the day for Muscovado, less the difference in duty, it will be seen that the advantages which Halifax offers, and which have so far attracted this trade, are of a purely local and incidental character, namely, the lower rate for handling of the shipments in the latter port as compared with the charges in New York. In New York the charges on a shipment, exclusive of the duty, average about 25 to 30 cents per 100 lbs., while in Halifax these come to only 18 to 20 cents, so that the difference in favour of Halifax is not in itself large, while the market is decidedly smaller and less expansive.

SUGAR PRICES MANIPULATED.

When the preferential abatement of  $33\frac{1}{3}$  per cent off the tariff was accorded to imports from British possessions, it was hoped that a very decided advantage would have been thus assured to our sugar in Canadian markets, but prices have been so manipulated that this advantage is almost entirely retained by the buyers under the arrangement by which the price is now arrived at. Thus, notwithstanding the supposed preferential treatment, we get precisely the same in Canada for our sugar as we would get were it shipped to the United States, and with the keen competition of your neighbours, it seems hardly safe to count on the small difference in the handling charges alone as a means of permanently retaining this trade. I refer to this matter as I am impressed with the belief that we are by no means getting the advantages which the Government contemplated when the preferential rate was so generously conceded.

CANE DISEASE DISAPPEARING.

Thanks to the untiring energy and most excellent work which is being done by the Imperial Department of Agriculture, cane disease which did such havoc on our plantations some years ago, has now almost entirely disappeared from this Island. New varieties of canes have been introduced which are giving everywhere most excellent results. Last year the out put of 16,624 tons sugar was considerably above the average of recent years, and while this year's crop will not reach these figures owing to unfavourable weather conditions, we still hope to attain the average.

DEMAND FOR MOLASSES IMPROVING.

I am glad also to report an improved demand for our molasses which had in late years become quite a drug. The article has been in active requirement at 12 cents and there seems every prospect of an advance.

IMPORTS OF USUAL CHARACTER.

In the matter of imports there is little to note. In addition to the usual importations, boots and shoes and other manufactured goods are being more largely introduced.

I have the honour to be, sir,

Your obedient servant,

S. L. HORSFORD.

NORWAY, SWEDEN AND DENMARK.

REPORT OF COMMERCIAL AGENT.

(*Mr. C. E. Sontnm.*)

GRUBBEGD, No. 4,

CHRISTIANIA, NORWAY, May 2, 1903.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—Confirming my report for the quarter ending March 31, I herewith have the honour to forward report for the month of April.

NORWEGIAN TRADE.

The trade values of Norway for the months of January and February compare as follows with the corresponding period of last year:—

|                          | Imports.       | Exports.       |

| Butter-collor . . . . .                       | 4               | oeres to 6 oeres. |

(1 Dollar=Kroner (Kr.) 3.75—1 Krone=100 oeres.)

TRADE OF DENMARK IN 1902.

The value of goods imported to Denmark from foreign countries in 1902 amounted to 435.5 millions of kroner, and the export reached 320.3 millions of kroner. Compared with the year 1901 the import has increased with 38.6 millions and the export with 28.2 millions of kroner. Among the articles which show a rising import are : Skins, hides, lumber and paper.

RUSSIAN MATCH EXPORTS.

An article appeared in a Danish trade-paper, which may possibly interest Canadian match manufacturers. It was stated that the imports of Russian matches to Persia is of considerable dimensions. Four years ago the imports amounted to only five millions of boxes, while in 1902 it had grown to thirty millions, and according to the present prospects the imports during this year seem as if they are going to be still larger.

MECHANICAL WOOD PULP.

The bad collapse of the market for mechanical wood pulp, after a protracted period of shortage of production, strongly points to a considerable overproduction, and as the bids now coming to hand are even kroners below the cost price, the Norwegian pulp-makers fully acknowledge the desirability of, or rather the necessity for a large restriction of the output. The management committee of the Norwegian Wood-pulp Association is in active correspondence with the Swedish section in this question, and it is to be hoped that at the general meeting of both sections to be held in the near future an agreement may be arrived at.

CANADIAN COMPETITION FELT.

According to the leading trade paper here, competition from Canada also now must be taken into consideration on the European market, and it looks as if the manufacturers on this side are becoming well aware of Canadas increasing pulp production and chances for competing for the European trade.

I have the honour to be, sir,

Your obedient servant,

C. E. SONTUM.

# TARIFF CHANGES

## CEYLON.

### INCREASE OF EXPORT DUTY ON TEA.

According to Ordinance No. 13 of 1902 which came into operation on June 1, 1902, there shall be raised, levied, and paid upon all exported tea, the produce of the Island of Ceylon, a duty not exceeding ten cents per one hundred pounds, the rate leviable to be determined by the Governor in Executive Council from time to time.

This Ordinance shall cease to be in force on June 1, 1905.

## COMMERCIAL AGENCIES.

The undermentioned Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

The Department of Trade and Commerce also invites correspondence from Canadian exporters or importers upon all matters pertaining to trade, and will cause special inquiries to be made by the Commercial Agents into any subject of general interest when so desired.

Such reports as have been received since the publication of the last monthly report of this department are appended.

These reports will be sent free to points in Canada upon application to: "THE DEPARTMENT OF TRADE AND COMMERCE, OTTAWA."

## - AUSTRALASIA.

## REPORT OF COMMERCIAL AGENT.

*(Mr. J. S. Larke.)*

THE EXCHANGE, SYDNEY, N.S.W., May 18, 1903.

To the Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

## GOOD RAINS.

SIR,—The rainfall of the last three weeks has been widespread and abundant. In scattered localities there have been some floods but as a rule there have been a succession of showers which the land has been able to absorb. The grain growing lands of nearly all Australia have been either sown and the grain is doing well or are in a condition to be sown, and this renders it probable that next year Australia will reap a good harvest.

The pastoral regions with some exceptions have been blessed with good downfalls, and as the weather has been warm there has been an excellent spring of grass, furnishing feed for the winter. The prospects for the year have completely changed for the better. The depleted flocks and herds cannot be replenished in a day, but it is hoped that this is the beginning of better seasons with a consequent improvement in trade.

## WOOL.

As the wool year draws to a close the shipments confirm the prognostication that the output of Australian fine wool will be about three hundred thousand bales short of that of last year. The wool sales of London and Antwerp show a steady rise in values and the prices are higher than for several years with the exception of the years 1899–1900, but the average of this year so far is higher than of either of the calendar years of 1899–1900. The probability is that the short supply in sight for next year will keep prices firm and further that Australia will obtain as much for the reduced yields of 1902–3–4 as it secured for the larger amounts of previous years.

Imports are necessarily restricted, but with a good harvest and a fair return for wool, trade must expand within the next six months, more particularly as stocks in hand are not excessive.

## BREADSTUFFS.

The market for Manitoba wheat and flour has been peculiar. The delay in the arrival of sailing vessels from New York made high prices for both in store but the large quantities on the water of wheat and flour has made it impossible to sell for future delivery. The Argentine so far tried is reported well of by the millers and as it is lower in price than Manitoba is quoted at, they hope that they can use the cheaper grain as a substitute. Some thirty-five cargoes of wheat and flour are reported en route for Sydney alone and the feeling is general that the orders have been given too freely. The reduced price of Manitoba flour has given an opportunity for its larger use and wider dissemination. It is being freely used in both Melbourne and Adelaide. With direct shipments from the St. Lawrence it should meet with larger sales in Western Australia. With the present prospects of a good grass and grain year there is no likelihood of any demand for other grain from Canada.

## FISH.

I have referred more than once to the failure to land fish in brine in good quality from British Columbia, owing to the faults in the cask, allowing the brine to leak out on the voyage. A recent shipment came out in excellent condition and the fish was appreciated on the market. It was carried in the cool chamber of the ship and possibly the cooperage was better. There should be less difficulty in landing fish from British Columbia than from Europe, which requires nearly double the time on the journey.

Of the million and a half dollars which Australia pays for imported fish, Canada directly gets but a small percentage, but firms are now becoming interested in the business here that have the facilities of placing frozen and cured fish on all the leading markets of Australia. Establishments for the curing of fish are at work in British Columbia who are now putting up smoked, dried and salted fish nearly equal in quality to some of the best European brands. If they take pains in getting their product here in good condition, and the cool chambers on the mail steamers afford the means, I hope shortly to see the fishermen of British Columbia get the share of this market that they should have. The difficulty here is an inefficient system of distribution which I hope to see overcome, and in British Columbia it is here thought there are too many middlemen used which brings the cost up too high.

## DIFFICULTIES IN THE WAY OF TRADE EXTENSION.

It is to be regretted that so much space has to be devoted in these reports to the mistakes made by Canadian exporters, but it is the only way to get them cured. There is not a ship that arrives that does not produce a series of complaints. Here are some of the recent ones:—

## DELAYED SHIPMENTS.

A ship arrived with oats that were expected by a steamer long before. The market for oats had gone to pieces and the importers netted a heavy loss. It was hoped that as a high grade had been ordered that some would have brought a good price for seed for which there was a demand. The oats were inferior, mixed and contained so many seeds of weeds as to make them unfit for the purpose. The quantity of foul seeds in the wheat received here has also prevented Canadian from being used for seed as otherwise would have been.

## MOULDY GRAIN.

Another lot of grain was refused by the purchaser on the ground that it was mouldy. The explanation of this is that the lot sent was the only sample that could be got on board the vessel owing to strikes and accidents on the railway preventing the shipment from getting to Vancouver in time.

## NO ALLOWANCE FOR EXCHANGE.

Where goods are sold C. I. F. & E. often no allowance is given for exchange at all where payment is arranged for in Canada. The full price is collected and the buyer finds the exchange charged up against him at his bank here. As this amounts to  $2\frac{1}{2}$  per cent it is a considerable item. Again where credit is given for freight to be collected at this end the credit commonly is at the rate of a pound sterling for \$4.86, but all the shipping companies collect at the rate of \$4.80 to the pound, a loss to the buyer of three pence in the pound.

## SUBSTITUTION OF OTHER GOODS.

Another is the substitution of other goods for those ordered. Until the exporter is thoroughly acquainted with the conditions of trade here it is at a great risk that this

can be done. A law suit is now threatened over an instance of this sort. A Canadian built machine was ordered and it was discovered that the order was filled by shipping a United States machine from which the nameplate had been imperfectly chipped. The United States machine is claimed to be inferior and at all events is sold in this market at five hundred dollars below that paid for the Canadian article.

#### BAD PACKING.

The complaint of bad packing is a perpetual one. Some United States lines are quoted price at factory with charges for packing and freight to New York given as extras. Canadians sometimes do so too. In a recent instance the United States charge was seventy-five cents for two dozen chains while the Canadian was \$1.92 for the same number. It is evident the Canadian exporter is charging too much or paying too much for inferior work.

It is necessary that some study must be given to packing in order that it shall be well and yet cheaply done. In cases I have seen the defect was due both to wrong methods and great carelessness. One box would be packed very well and the other loosely. The conclusion came to was that a man with some common sense and knowledge of the conditions had done one and the other had been turned over to a boy without supervision. It must be remembered that as most of the goods coming *via* New York are probably handled ten times between the factory and the consumer, and that by men not the most gentle in their treatment, besides being tossed on the sea for two months, anything likely to damage by friction must, therefore, be so firmly packed that there may not be sufficient motion for shock or abrasion.

#### IRRIGATION MACHINERY.

The striking results obtained by irrigating comparatively small areas during the recent drought is certain to attract wider attention to the necessity of making larger provision for the dry seasons and create a demand for the machinery for this purpose, including pumps and other appliances for raising water and motors for them. The latter include wind-mills, steam, oil and hot air engines. Some Canadian wind-mills are in use in various parts of Australia giving, I am informed, great satisfaction.

The sale has not been steady owing to lack of arrangements for handling them. To do the work to the best advantage they must be sold as agricultural implements by canvassers directly to the user and put in place by the seller. There are a few firms who handle wind-mills as ordinary merchandise, but these firms have arrangements with some manufacturer and it will require evidence of the superiority in quality or price to induce them to change to a new line, which the ordinary manufacturers' agent is rarely able to give.

A thoroughly informed traveller is necessary to introduce a new line and it would be necessary to put up some plants and thus demonstrate their value. There appears to be an excellent opening for a Canadian firm to take up this work.

#### PROVISIONS.

The large shipment of frozen hogs from Chicago has cut prices below the cost of importation. There is one branch of the trade that has scarcely been touched, the supply of porkers to the butcher. The class of hogs brought here has been too heavy and too fat for this purpose. They should weigh from 65 to 90 pounds. A fever is prevalent amongst the herds of both Queensland and New South Wales and where it is known it is creating a disinclination to use pork. The good feed has increased the price of mutton and beef as there is now feed for all the stock. As this is likely to continue for a year or more prices for pork are likely to go higher and make it possible to bring over frozen hogs of the weight I have given if they can be obtained in October and November. Just now the prices are too high in Canada to permit of this being done.

There is some inquiry for butter and eggs, but the duty on these articles prohibits importation and is likely to continue to do so throughout the year. Even should prices rise New Zealand is likely to supply the quantity of butter that may be needed and China the eggs.

## EXPORTS.

The exports of canned meats has been resumed and some quantities are likely to go forward mainly for the Klondyke trade.

Some experiments have been made with binder twine made in Sydney from New Zealand flax. The results were so satisfactory that the trade in future years may become one of some magnitude to points a little beyond Calgary.

Another new line is salt from South Australia. It is thought that in certain brands it can be laid down in British Columbia at prices to compete with Liverpool.

If direct purchases of wool hides and skins could be established it would do much to solve the problem of exchange which now troubles the Canadian export trade and it would also better freight conditions by giving cargoes both ways.

## THE PACIFIC CABLE.

The Postmaster General of New Zealand was authorized by the Cable Board to put on canvassers to meet the efforts of the Eastern Extension Co., and he reports that as a result the business of the Pacific Cable has been largely increased.

The employment of similar means is needed in Australia and would produce like results.

I have the honour to be, your obedient servant,

J. S. LARKE.

## SOUTH AFRICA.

## REPORT OF COMMERCIAL AGENT.

(*Mr. J. G. Jardine*).

Address :

JOHANNESBURG, May 9, 1903.

P. O. Box 1232,  
Cape Town.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—I had the honour of addressing my last report to you from Bulawayo, on April 4. Since then I have visited Gwelo, Salisbury and Umtali, in Rhodesia, interviewing the various chambers of commerce, newspapers and business men generally.

## SOUTH AFRICA INTERESTED IN THE GERMAN SURTAX.

Everywhere in Rhodesia, as in the other colonies, I find manifested a growing desire to obtain information as to the possibilities of Canada furnishing many of the materials hitherto imported from Germany and the United States. That portion of the Honourable the Finance Minister's budget speech which was cabled to the South

African press 'relating to the proposed sur tax on imported German goods into Canada' has given the most unbounded satisfaction to all classess of people here, and will certainly help largely to increase the South African trade with Canada, if only Canadian exporters are prepared to take advantage of the opening.

#### RHODESIAN POSSIBILITIES.

Rhodesia (unlike the country as viewed from a railway carriage on the journey from Cape Town to Bloemfontein and again from Bloemfontein to Mafeking) has abundance of trees and the grass is green and nutritious after you strike the northern portion of Basutoland and enter Matabeleland and Mashonaland. The farms, however, are few and far between, but what there are, I understand, belong to the very best class of farmers to be found in South Africa and average 6,000 acres apiece.

The native population here, as elsewhere in South Africa, do very little agricultural, or any work, when at their kraals, apart from growing mealies and raising a few fowls and a cow or two to sustain life. At every stopping place along the railways scores and, sometimes, hundreds of both sexes scantily clothed are at hand to sell curios and Kaffir trinkets. The golden harvest is great but the labourers are few, hence scarcity of money, business depression and a keen sense of disappointment felt everywhere by many of the newcomers who emigrated to South Africa after the close of the war.

#### CATTLE SCARCE IN RHODESIA.

Rhodesia gives one the impression that it ought to be a good stock-raising country, but here again comes in the scarcity of water and the terrible red water cattle disease, The whole of Rhodesia to-day is about denuded of cattle by this scourge. Dr. Koch, the eminent German savant, has set up his laboratory at Bulawayo and remains for two years in South Africa making experiments with a view to finding a cure, and great hopes are being held out of a remedy being found. Meanwhile her business and mining men are full of energy and hope and have great faith in Rhodesia becoming in time the fairest and richest of all South African Colonies.

#### MINING MACHINERY IMPORTS.

Rhodesia produces at present about 20,000 ounces of gold per month, and her mining machinery admitted free of duty for the year 1901-1902 amounted to over \$800,000, and agricultural machinery and tools, \$50,000.

#### INDUSTRIAL GOODS, &c.

Industrial goods, such as boots and shoes, \$145,000, and Kaffir cotton blankets and rugs, \$130,000; building materials and wood are also admitted free of duty and amounted to \$300,000 for the same year. Furniture of all kinds and household equipments in 1901-1902 amounted to over \$250,000 and are subject to duty.

#### FREE ARTICLES.

The duty-free articles comprise the great majority of the items of food as also of drink, such as canned meats, fish, fruits, potatoes, onions, poultry, frozen and preserved meats, eggs, &c.

#### DUTIABLE GOODS.

Articles of all kinds paying duty for 1901-1902 amounted to \$2,500,000, and the duty collected was \$615,000. This works out an average percentage of 25 per cent, but as a matter of fact the great bulk of these goods pay an average of only  $8\frac{1}{2}$  per cent, while 60 per cent of the total importations into Rhodesia are duty free.

## IMPORTATIONS FROM CANADA.

It may be asked what percentage of these importations come from Canada? A very trifling amount—hardly anything direct. Via Great Britain a few thousand dollars worth of flour, bacon, cheese, canned products, furniture, doors, sashes, &c., come by British vessels to Beira and Cape ports, but are car marked 'English products.' If a few more representatives to South Africa were sent out by manufacturers of timber, furniture, shoes, implements and stoves, food products, &c., to exploit South Africa from the Cape to Zambezi, Germany and United States pushers, at any rate, would not have quite so much their own way as at present in the particular lines above mentioned.

## RHODESIA'S NATURAL PORT.

Beira and Lourenco Marques, in Portuguese territory, are dull, slow places and only of importance on account of their harbours. The former is the natural port for Rhodesia, being only 374 miles from Salisbury, the capital, by the Beira and Mashonaland Railway now completed, and 1,164 miles by railway from Cape Town. At present, however, the freight charges from Beira to Salisbury are about the same as from Cape Town to Salisbury.

Lourenco Marques is, perhaps, the safest harbour in South Africa when storms arise, but like all other ports, except Cape Town, there is no wharfage and only lighter equipment. The authorities, however, are providing some wharfage accommodation and expect to have shortly 330 yards of deep water dockage completed. The distance from Delagoa bay by rail to Johannesburg is 396 miles, while from Durban, the nearest South African port to the Rand, it is 483 miles.

## CANADIAN ENTERPRISE.

Before leaving Lourenco Marques for Pretoria, through the courtesy of the managers of the Lingham Timber and Milling Company, I was taken up the river to Matolla, the river front terminus of their branch railway line, with pier accommodation and direct connection with the main railway line to the Transvaal. This enterprising Canadian company, of which Mr. Lingham, a native of Belleville, Ontario, is the president; (the McLaren company of Buckingham and Ottawa also have an interest) have erected splendid timber mills with machinery of the newest design, every part of which was manufactured by a Toronto firm, and, besides they have just completed an up-to-date flour mill, the valuable machinery of which was made by a Galt, Ontario, firm. The managers are Canadians, besides a number of employees all hailing from Canada, and principally from the old county of Hastings.

It was pleasant as the 'shadow of a great rock in a weary land' to spend a couple of hours piloted by the esteemed manager of this great Canadian company and view the logs being cut into planks of all sizes and shapes, and afterwards transported to all parts of Africa on cars loaded at their depot close to the mills. I could hardly realize that I was not on the banks of the Ottawa, instead of the shores of the Indian Ocean. I was sorry to learn that only a small proportion of their immense output of timber came from Canada. The United States (Puget Sound) and the Baltic, furnishing most of their raw material, and not because the company desire to discriminate against Canada, quite the reverse. What are our friends in British Columbia doing to exploit this market?

The manager will be pleased, I am quite sure, to give information and reply to every bona fide Canadian enquiry, by addressing Manager, Lingham Timber Co., Ltd., Lourenco Marques.

## AGRICULTURAL MACHINERY FOR THE COLONIES.

Mr. Henry Birchenough, who was sent out to South Africa by the Board of Trade as British Trade Commissioner, has reported to the Board, 'as a pressing matter,' on the opportunity offered to British manufacturers for re-stocking the Orange River Colony

with farm tools and the cheaper kind of agricultural plant. Mr. Birchenough thinks the agricultural development of the Colony, as soon as the railway extensions are carried out, will be 'very striking,' and a clean sweep having been made of agricultural implements and machinery the farmers have to start again from the beginning.

#### CHANCE FOR CANADIAN EXPORTS.

'As they are by nature extremely conservative,' Mr. Birchenough's letter, says 'I am assured they will continue to use and re-order for many years to come the types of machinery and implements they now adopt.' If British manufacturers allow their American competitors to occupy the field they will, the writer warns them, have infinite difficulty in dislodging them in the future. The repatriation supplies meet only immediate needs and leave a very large field for private enterprise.

The letter continues :—'As a guide to manufacturers and exporters, let me point out that the majority of farmers in the Orange River Colony will for some time be very poor, even when the various compensation claims have been paid. They will be short of oxen, horses and labour, and for that reason will not be able to cultivate large tracts of land, such as warrant the use of expensive and elaborate machinery. They will, however, require farm tools of all kinds, light ploughs, harrows, small dairy plant, &c. Heavy ploughs are useless, as the farmers will not for some time have oxen to work them.

'The Americans, as is well known, have obtained the strongest possible hold upon this branch of trade. They have, of course, been assisted by the fact that the agricultural problems they have had to solve at home are in many respects similar to those the South African farmer has to face, so that their manufacturers are better prepared at the outset to meet the South African demand. Still, there seems to be no reason why British manufacturers, if they will study the agricultural conditions of the country, should not be able to compete successfully with their American rivals. Now is the time to be on the alert and to lay themselves out to meet the demand which will assuredly accompany the coming agricultural development of the Orange River Colony and the Transvaal. If they let slip this opportunity I fear it is not likely to recur.'

I have ventured to include this capital letter of the British Trade Commissioner in this report. It is quite as applicable to the Transvaal, and indeed to most of the other Colonies in South Africa *re* the description of implements required now and for some time to come. Canadian manufacturers are in as good a position as either Great Britain or the United States to furnish these articles.

#### TINNED DOMESTIC SARDINES.

If put up in 3½ and 5 ounce tins in good oil, and laid down in South Africa at a price to enable the retailers to sell at about 9 and 12½ cents a tin, the demand will be large. A very common article in 2 ounce tins comes from London and is sold to the Kaffirs for a tickey or 6 cents a tin. The real French article (about 5 ounce tins) retails for thirty cents.

#### TINNED OR CONDENSED EGGS.

This article is now put up in England and is beginning to attract a large sale throughout South Africa, where fresh eggs sell from 3s.6d. to 7s.6d. a dozen. I am told it consists of ordinary eggs with some of the superfluous water extracted, and sugar added. In appearance it looks like 'Redpath's syrup or treacle,' by adding a little water and beating briskly, it is hardly possible to tell it from the ordinary fresh egg.

They are packed for this market in hermetically sealed tins containing one pound and upwards, a one pound tin being the equivalent of fifteen new laid eggs. In Canada where eggs are so plentiful and cheap in the summer season there ought to be capital openings for this new venture of egg condensation for export purposes, at any rate.

## CAPE TOWN EXHIBITION.

The postponements of the Cape Town exhibition until the end of 1904 is a move in the right direction. Mr. Chamberlain, I understand is taking some interest in it and when here used his influence with the governing authorities at Cape Town to have the exhibition held on Green Point Common, a magnificent sight a mile from the centre of the city only, and fronting Table Bay, with the glorious mountain in the background. The British manufacturers are certain to put up a good exhibit provided the exhibition is well managed and as the Duke of Argyll, our own High Commissioner, Duke of Cambridge and Westminster, Lord Milner and many other magnates are giving it their patronage, it should succeed.

On my return to Cape Town in August I will obtain all particulars possible and send them to Ottawa.

## CANADIAN EXPORT TO SOUTH AFRICA.

The Canadian Direct Line is bringing monthly full cargoes of Canadian products, including timber, wheat, flour, butter, (apples in season) biscuits, bacon and hams, canned provisions, furniture, doors, sashes, church pews, desks, organs, agricultural implements, boots, shoes, flannelettes, carriages, &c.

On the whole the importers I have thus far interviewed are fairly well satisfied with their purchases, but complain of the long delays of many months before the stuff reaches them, delays in Canada and at coast ports here, and afterwards the long railway haulage to the Transvaal on our narrow gauge rails. Frequently many weeks, and sometimes months, go by ere the owners see their consignments. Meanwhile the goods have been paid for, and if on examination, as frequently happens, the materials are not according to order it causes bad blood and great disappointment to all concerned.

## BAD BUILDING MATERIAL FROM CANADA.

Let me give one instance out of several I have met with. A Canadian firm of commission merchants in Johannesburg ordered several thousand pounds sterling worth of building materials for the Government railways, after some months about £3,000 worth arrived, and on examination the Government refused to take it and cancelled balance of the order as not being first quality as ordered, but the commission firm had already accepted sight draft and paid the figures for first quality wood. I saw both the timber and the Government purchasing expert, and repeat the remarks of this gentleman, 'I am surprised that a reputable firm in Canada or anywhere else would send out such stuff.'

Meanwhile it is eating itself up in expenses awaiting a buyer. And although timber of all kinds is in great demand at present in Johannesburg no one can be found to take this lot, at any price. Most of the timber and building men here know all about it and whence it comes.

## WARNING TO CANADIAN EXPORTERS.

If this sort of thing is to be often repeated by Canadian exporters it would be well for the Right Honourable the Minister of Trade and Commerce to seriously consider the advisability of abolishing the Commercial Agency, at least in South Africa, as under these circumstances its usefulness will be gone.

I have the honour to be, sir,

Your obedient servant,

JAS. G. JARDINE.

## JAMAICA.

## REPORT OF COMMERCIAL AGENT.

(Mr. G. Eustace Burke).

KINGSTON, JAMAICA, June 1, 1903.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—Since I had the honour of addressing you on April 14, statistics disclosing the total exports of the Island for the fiscal year ending March 31 last have been published.

## INCREASED EXPORTS—CANADA'S CUSTOM.

While it is pleasing to observe the continued increase in the exports of the colony generally, it is gratifying to be able to report that the direct exports to Canadian ports have materially improved and, in some items, may be termed remarkable, as the following analysis will show :—

## COCOANUTS.

For the years under consideration (1902-'03) 2,778,205 went to the Dominion direct, while but 1,712,637 were shipped the previous year. The total quantity exported was 26,239,686, of which the United States took 19,900,661.

## BANANAS.

The increase in direct shipments of this fruit was phenomenal, for while in 1902 but 12,608 bunches were shipped, for the year under consideration no less a quantity than 120,868 bunches went direct, the greater portion taken by the s.s. *Ask* of the Canada-Jamaica line, the s.s. *Beta* of Messrs Pickford & Black also taking increased quantities on previous years.

While a very material increase was foreshadowed in previous reports as a result of the advent of the first mentioned steamship line, I calculated on no such remarkable difference of figures. When it is considered that the *Ask* is a nine days' boat to Halifax, and a comparatively very small craft, declining to accept outside bananas on freight, (and at times oranges, cocoanuts, &c.) being loaded entirely, as far as satisfactory fruit room is concerned, by growers, the above results surely demonstrate, beyond room for speculation that, with subsidized up-to-date transportation facilities, my laboured contention all these many years—trade exchange between this colony and the Dominion would develop by leaps and bounds, surprising even the most enthusiastic advocates of the oft suggested enlightened conditions.

The total exports were 14,660,582, beating the record by over  $3\frac{1}{2}$  million bunches.

## ORANGES.

Here again is additional proof. Shipments in 1903 very nearly doubled those made in 1902, the figures being 7,545,600 and 4,058,050 respectively.

The total exports were 99,241,697, the United States being a constomer for 84,782,437, and the United Kingdom for 6,068,310 ; the number of 845,350 going to other countries.

It will thus be seen that direct shipments to Canada exceeded that to the United Kingdom. The exports to the United States noted above was an increase of some 12,000,000 on the previous year.

#### GRAPE FRUIT.

The total export of this not too well known fruit, amounted to 11,371 barrels while in the preceding year but 9,932 were shipped. The United Kingdom taking 1,344 ; the United States 8,724 against 8,401 for 1902, and Canada 1,251 barrels against the insignificant number of 152 barrels for the previous year, showing a remarkable development approaching 800 per cent.

To all appearances this fruit has a good future, and when better known throughout Canada, a lively demand is assured.

#### GINGER.

|                      |       | 1902-1903.    | 1901-1902.    |

| Totals.....          |       | <u>27,283</u> | <u>22,482</u> |

It will be noticed that there has been an all round increase in shipments to the Island's various customers, but none is so significant as that relating to Canada, the figures showing an increase of over 82 per cent.

#### PINE APPLES.

The increase of shipments to Canada developed close on 600 per cent, the figures being : 1903, 2,229 dozens ; 1902, 373 dozens.

It is interesting to note that, while shipments to Canada increased so phenomenally, shipments both to the United States and to the United Kingdom fell off very appreciably, especially as regarding the latter outlet.

The United States in 1902 took 4,565 dozens, while last year her take was but 4,175 dozens, and 9,609 dozens went to the United Kingdom in 1902 ; shipments in 1903 dwindling down to 2,609 dozens.

With the remarkable increase to Canada, I can only conclude that improved carrying factors facilitated the delicate fruit arriving in encouraging order, stimulating the forwarding of orders to the Island instead of dealers importing through United States channels. This certainly must have been the case, for while prices were barely nominal in New York and Boston, there was no unusual demand for the fruit in Canada.

## DECREASES.

Although the total Island's exports for coffee, cocoa, dyewoods and pimento, show very appreciable increases, shipments to Canada fell off somewhat as compared with the previous year. There are many factors which may account for this. For instance, during the first portion of the year 1901-1902, I do not think that appreciable quantities of the respective products, excepting perhaps dyewoods, were shipped on through freights via Canada.

Again, the Canadian demand generally might not have been up to the usual standard and prices realizable not encouraging ; or probably, lower freights and expediting consideration might have induced shipments destined for Canadian Ports. Of course it is distinctly impossible to furnish anything absolutely accurate to account for the falling off, but it is more than probable that one or the other of the foregoing reasons may be responsible.

## HONOURABLE SYDNEY OLIVIER'S MISSION TO OTTAWA.

The Honourable the Colonial Secretary of the Colony, Mr. Sydney Olivier, is expected to sail to-morrow via Boston for Ottawa *en route* to Great Britain on six months leave of absence. The object of his mission to Canada I have already dealt with in a previous despatch.

Guided by correspondence received from various commerical centres of activity in the Dominion, especially in the Maritime provinces and Montreal, it would appear that Canadian manufacturers and producers are taking quite an interest in Mr. Olivier's visit. It is also to be noticed that influential sections of the Canadian press are also commenting on the potentialities likely to accrue to both Canada and Jamaica as the outcome of his mission.

As far as Jamaica is concerned, there is but one opinion if his visit results in a well equipped fast direct service ; and as it is well known that both Mr Chamberlain, the Secretary of State for the Colonies, and His Excellency Sir Augustus W. L. Hemming, G.C.M.G., the Governor of the Colony are very keen on the subject of closer commerical relations between the two Colonies and Mr. Olivier is also very favourably impressed with the importance of achieving such a consummation, it is confidently looked for that something definitely progressive will shortly be learnt.

## THE AMENDMENT IN THE CANADIAN TARIFF.

Needless to say, the announcement that Mr. Fielding, the Canadian Finance Minister had made certain amendments in the customs tariff which would permit of West Indian sugars entering at a still further advantage over German beet, was received with much satisfaction, inspiring hope of some advantageous outlet for the coming crop. Opinions are much divided as to what will be the outcome of the abolishing of the bounties to take place as from September 1, next, many planters contending that relief in that direction has come too late.

## WEST INDIAN SUGARS GOING TO CANADA.

Messrs. Gillespie Bros. and Co., of London and New York, decided authorities on all commercial and agricultural matters affecting the West Indian Islands, and who have very appreciable financial interests at stake in most of the islands, in a recent circular dated from their New York house announces that the bulk of the West Indian sugars are now being marketed in Canada. It reminds those interested that the Dominion at present cannot take the entire output, but with a good deal of candour, impresses upon the planters and manufacturers that it is more than probable that at no far distant date Cuba will be a component part of the United States, and then together with the increased output of Porto Rico, the Phillippines and the Hawaiian Islands, and their domestic output, there will certainly be no room for the foreign article. The circular obviously points out that if they (the planters) study their true interest, while taking all present advantage of the American markets they must seek and endeavour to pave the way and cultivate new outlets for remunerative demand.

## WEST INDIES LOOKING TO CANADA

No doubt the Westmoreland Sugar Planters Association, a very influential organisation of the sugar interests in the Island, will take advantage of the timely advice, and doubtless the other Islands of the group have been made fully alive to the possible and probable coming situation. Trinidad at least appears to have fully realized the future outlook, and are to all appearances 'hustling' for what I may term the Canadian option. At present, she certainly has one advantage in that direction over this Island, for in addition to Halifax, she enjoys, I understand, a fortnightly service to and from St. John.

## TORONTO ALL-CANADA EXHIBITION.

The agricultural society at its last meeting voted a credit so that Jamaica may be fittingly represented at the all-Canada exhibition to take place in August next. Mr. Olivier has also promised to pay a visit to Toronto and will no doubt forward a communication here for publication pointing out his impressions of the potentialities that may accrue thorough representative exhibit of the Island's exporting possibilities.

I have endeavoured to impress on possible exhibitors the importance of this particular exhibition, pointing out that it is an all-Canada exhibit, and in which but the West India Islands and Newfoundland will be permitted to take part, outside of Canada, for the success of which the Dominion Government have supplemented the funds with a grant of \$50,000. Again, I have drawn to notice the fact that it will be about the time when some 200 representatives of British Commerce and Industry from all parts of the world will assemble at Montreal attending the Congress of the Chambers of Commerce of the Empire, most of whom will assuredly visit the exhibition. Then again, several members of the British Parliament are expected to visit Canada about that time, making the possible benefits to arise, and the opportunity for advertising the Island generally a unique one.

I hope to induce the Planters' Association of Westmoreland in making a special representative exhibit. And as the old truism still stands good today, that 'where you sell there you are most likely to buy,' if an unusual interest be aroused here in connection with this exposition, resulting in a marked development in the island's exports to the Dominion, it is inevitable that increased imports from Canadian centres of industrial and manufacturing activity must follow.

## CANADIAN BUTTER AND CHEESE WANTED.

The Canadian 'Blue Nose' brand of Nova Scotia still enjoys a lively demand. What astonishes me in consideration of the very appreciable output, this market offers for both butter and cheese, especially the former, that other butter and cheese sections

throughout the Dominion do not make a determined bid for the trade, notwithstanding the conditions existing in their favour, as against imports from the United States and the United Kingdom. I do not hesitate to say, that if Canadian factories can be got to pay some attention and show some interest in meeting the conditions of the demand, and dealers and exporters will reasonably co-operate in making an energetic effort to cultivate the Canadian demand, that the time would not be far distant when the Canadian article would practically monopolize the best trade.

There has been a very appreciable falling off in the imports of oleomargarine and other butter substitutes, while on the other hand, the imports of butter has correspondingly increased, demonstrating conclusively consumers' 'leaning' to the genuine article. While fairly large quantities of both creamery and dairy description are being at present shipped from Halifax to this market, I hardly think a single pound arrives by direct order from an Ontario or Quebec factory or shipping house, although efforts at this end have been made to accomplish this, but have always failed to result in anything appreciably practical, and for the strange reason—I use the term 'strange' advisedly—that both Canadian producers and exporters practically cannot be induced in taking a genuine interest in complying with the requirements of the demand as to size and method of packing, &c.; but when approached suggest such impossible unusual terms and conditions, as if they were the only producers of the articles in question in the world.

#### FLOUR IMPORTS FROM CANADA.

It is pleasing to turn to a more promising situation regarding flour, and it would seem that at last some Canadian millers are beginning to realise that this market is worth capturing, and this too, at the sacrifice of probably cherished conservative methods. I mentioned in a previous report that two brands from a St. Thomas, Ontario mill had fairly 'taken,' but complaint was made of delay in shipments when ordered, and also not strictly complying with grade and other instructions.

I am glad, however, to report that there has been an all-round improvement in this, with the result that two other brands (grades) from the same mills promise also to be successfully placed. A Chatham, Ontario, brand is also making headway through a specially appointed sole agent, as in the previous case mentioned. Occasionally other small lots of Manitoba grades drop in. It is, however, necessary to explain that while I have written as I have done, Canadian millers in the aggregate have by no means made any appreciable inroad on the 170 thousand barrels imported annually on an average from the United States; still it is encouraging to note that practical efforts to get a substantial 'footing,' is at last receiving serious attention.

#### TRANSPORTATION VIA NEW YORK.

As there will shortly be published official detailed statistics of the entire imports of Jamaica for 1902–1903, giving supposed country of origin, it is necessary for me to point out that while there will be a marked 'showing' in direct shipments both ways, still this will in no wise give an accurate idea of the actual trading conditions between the two colonies. For I am in a position to state that consignments of flour, furniture, oats, canned goods, &c., of Canadian origin have been arriving in increasing quantities via New York.

#### LUMBER AND READY-MADES.

Sectional returns available show a marked increase in the importation of white pine lumber and deals, also in ready-made sashes, blinds, doors, buggy, wood materials, &c., which I have satisfied myself is of Canadian origin; yet the probability is that the credit to Canada for these commodities will be insignificant.

## COMING CROPS.

Reports from all parts of the island give the welcome announcement that the recent drought has been completely broken, and that the rainfall has been all that can be desired, assuring (if nothing unforeseen happens) good coming crops. This is particularly so in the case of oranges, bananas, sugar, pimento, ginger, cocoa and coffee. Apart from depressed prices, the sugar planters particularly have had a very trying time of it, suffering considerable loss by drought. Taking everything together, future prospects however, cannot be altogether said to be discouraging. The Vere Irrigation Works (one of the largest sugar districts in the Colony) will very shortly be completed. This certainly will be a boon to the planters of the district.

The health of the island is excellent.

I have the honour to be, sir,

Your obedient servant,

G. EUSTACE BURKE.

## TRINIDAD AND TOBAGO.

## REPORT OF THE COMMERCIAL AGENT.

(*Mr. Edgar Tripp.*)

PORT OF SPAIN, TRINIDAD, May 29, 1903.

The Rt. Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—The commission of inquiry into the recent riots has come and gone. There was not the slightest disturbance during its deliberations nor indeed has there been since the lamentable occurrences of March 23.

The report of the commission is anxiously awaited and it is earnestly hoped that the finding will tend to diminish the friction which unhappily now exists between the authorities and the people.

## BETTER RELATIONS WITH VENEZUELA.

A short time ago the Chamber of Commerce learnt that there had not been included amongst the matters for settlement with Venezuela the old standing and serious grievance of the 30 per cent extra duty imposed by that Republic upon goods imported from the British Colonies. They immediately represented this to the government, who telegraphed to the Secretary of State for the Colonies, and there is now reasonable ground for belief that the subject will not be overlooked.

## CANADIAN GOODS BECOMING BETTER KNOWN.

I am pleased to report that as the result of a visit paid this morning to the heads of the leading dry goods firms in Port of Spain, I find that Canadian manufactures are gradually becoming more known and appreciated, and although much remains to be done to raise this trade to the volume which it should command, things seem to me very hopeful and promising. Under this head I shall go more into detail when I have the official figures before me.

I have the honour to be, sir,

Your obedient servant,

EDGAR TRIPP.

Under date of June 17, Mr. Tripp also sends the following information to the Department of Trade and Commerce :—

NO COMMERCIAL TRAVELLERS' TAX.

In answer to your query on the subject, I may state that there is no commercial travellers' tax imposed in this Colony. All facilities are given to such travellers. Their samples, if liable to duty, are allowed to be landed and removed on a deposit sufficient to cover the duty, which is refunded when the goods are reshipped.

IN FAVOUR OF MR CHAMBERLAIN'S PROPOSAL

At a meeting of the Chamber of Commerce held yesterday to receive the opinions of the members in regard to Mr. Chamberlain's proposals for preferential trade within the Empire, for the information and instruction of the Chambers' delegates at the Montreal Congress in August, the following resolution was unanimously carried, viz :—

'That this chamber heartily approves of the Right Honourable Joseph Chamberlain's proposals to still further consolidate the British Empire by means of preferential tariffs between Great Britain and her Colonies ; also, that the delegates representing this Chamber at the Congress of Chambers of Commerce of the Empire, to be held in Canada this year, be instructed to support any proposals or motions tending towards the formation of an Imperial Zollverein that may be brought forward.'

In proposing the above resolution, Mr. Randolph Rust, who is well known in the Dominion, made special reference to the fact Canada had ever been in the van in the efforts made to consolidate the Empire, and his remarks under this head met with much approval.

## NORWAY, SWEDEN AND DENMARK.

## REPORT OF COMMERCIAL AGENT.

GRUBBEGD, No. 4,

CHRISTIANIA, NORWAY, June 3, 1903.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—The Swedish statistics just out contains a comparison of the imports and exports for the months January–March 1902–3, of which I mention the following articles as being of most interest to Canadian manufacturers and exporters :

## MARKET BARE OF FLOORING.

It is reported that the entire Scandinavian market is bare of floorings, suitable for the Cape market, for shipment before end of July ; some houses quote for August, and several mills are unable to take contracts for this year at all. As the Cape demand is far from satisfied, prices are ruling very stiff.

## COD-FISHERIES SEASON OVER.

The Norwegian cod-fisheries for all districts south of Finmarken may now be considered as practically over, the aggregate volume for the whole country up to May 23 being estimated at 39 $\frac{1}{10}$  millions as compared with 36 $\frac{8}{10}$  millions in 1902.

## CROP PROSPECTS ENCOURAGING.

As to the crop-prospects it may be said, that at present they are very encouraging, and it is to be hoped, that the crops throughout the Scandinavian countries will be such, that to some extent they will balance the poor results of last year.

I have the honor to be, sir,

Your obedient servant,

C. E. SONTUM.

## BIRMINGHAM.

## REPORT OF COMMERCIAL AGENT.

(*Mr. P. B. Ball.*)

16 BENNETT'S HILL,  
BIRMINGHAM, ENGLAND, June 10, 1903.

The Right Honourable,

The Minister of Trade and Commerce,  
Ottawa.

SIR,—Since the opening of my office I have had 52 absolute inquiries from people desirous of doing business with, and from Canada. This, of course, does not include the very large number of people who have written for information, and others who have called to discuss trade matters.

## CANADIANS REMISS IN CORRESPONDENCE.

I have a number of complaints from people here who have tried to do business with Canada in former years, and the statement is general that the Canadian manufacturer is very remiss in his correspondence. If he writes at all, it is usually to say that he is so busy with the home markets that he cannot attend to their wants. If the manufacturers of certain articles in Canada would take the trouble to come to this country to go over the markets, they would find an almost inexhaustible demand, and certainly better prices could be obtained than at home.

Among other articles that have been brought before my notice, and to which I have given considerable attention, are:—

## WOOD HANDLES.

These are required in very large quantities for hammers, shovels, picks, &c. I have had a bundle of samples sent on to Canada, so that all the manufacturers there may have a chance of looking them over and sending in quotations. This should be a very large trade. The Americans have been handling it principally, but with the eight manufacturers of these goods in Canada the Dominion certainly should be able to get a portion of the trade.

## FRUIT.

In going through the wholesale and retail markets, I find that Canada is much behind Australia and Tasmania. This may perhaps be due to the fact that it is not our fruit season. In speaking to a number of the large dealers they claim that although Canadian fruit is packed much more carefully than was the case formerly, still much is to be desired. The method of handling here is, Canadian shippers consign to Liverpool, where they are auctioned three times a week, and the large Birmingham handler goes to Liverpool and purchases what he wishes, then brings them to Birmingham and auctions again, supplying the wants of Wolverhampton, Walsall and the surrounding district. There must be something radically wrong in the handling of a trade when the retailer has to pay at least 6d. per pound for a decent eating apple. Tasmanian and Australian fruit coming in here now is not to be compared in flavour to Canadian. The Canadian apples shown on this market are not a fair sample of what Canada produces. This matter I shall go into more fully later.

## CANNED GOODS SUCH AS VEGETABLES, FRUITS, ETC.

I have not seen a can of Canadian goods in the dozens of shops I have been into. In vegetables and meats, the Americans seem to have almost entire control; in fruits, the Germans and the French, together with Californian canned goods, seem to have the market. The Germans and French do theirs up in a very nice way, nearly all in glass, and I should advise Canadian shippers when sending over first consignments of goods, that no matter what they cost, a certain proportion should come out in glass, being of course, absolutely the same as the goods to be put in tins. There is a certain prejudice here against what they call 'tinned goods' and the wealthier people would pay two prices for goods put up in glass to what they would pay for goods in tins, but the poorer people are taking considerably to canned goods. In speaking on this matter to a very large importer he told me that if the Canadians could put up pork and beans so that they may come into this market a little lower in price than Heinz (who is the most expensive manufacturer in the United States), there is an enormous market in the Midlands, and so with every class of vegetables.

## CHEESE.

A large quantity of Canadian cheese is used here, but I see that quantities of it which I am absolutely certain comes from Ingersoll and other points, are sold as English Cheddar and Cheshire.

## BUTTER.

I have seen almost nothing of Canadian goods.

## EGGS.

I have seen a few cases here, and they are from Strathroy and Trenton, and ten cases in one lot from Owen Sound. The sellers seem to think very well of the way they are packed and the quality.

## BACON.

It is very difficult to trace. I saw one dray load coming from a large factory near Toronto, but within half an hour it was on the counter as British goods. The packers in Canada have exploited the market well. Still I should think there could be a great deal more sold if they could produce it.

## FLOUR.

Most of the Canadian goods is shipped to Liverpool and Bristol. They have their exchange here every Wednesday, but I have not been able to get closely enough in touch to find out their methods of selling.

## BREAKFAST FOODS.

I find almost no breakfast food known here except oatmeal.

It would strike one coming here from Canada that our Flake Wheat and other breakfast foods would have a good sale if they were placed on this market. A few special things have been sent over from the United States, and one American firm has a small mill here for flaking wheat. I understand that the demand is such that he intends enlarging his plant at once.

## AN IMPORTANT QUESTION.

I can only say again, sir, that it will be the fault of the Canadians themselves if they do not sell a much larger amount of goods in this country than they have been doing. There is a considerable prejudice in favour of Canadian goods, but the question is always asked 'how are we going to get them?'

I have the honour to be, sir,

Your obedient servant,

P. B. BALL.

## FRANCE.

## REPORT OF COMMERCIAL AGENT.

(*Mr. Anatole Poindron.*)

101 RUE RÉAUMUR, PARIS, June 17, 1903.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

## PROSPECTS FOR CANADIAN FRUIT EXPORTERS.

SIR,—Grain crop prospects have substantially improved during the month of May and returns would promise quite satisfactory if dry and warm weather were to prevail. The fruit crop will be very short in cherries, peaches, prunes, pears and early apples. This would afford a very good chance to Canadian fruit exporters to get their share on the French import market. Besides, owing to considerable shortage in the fruit crop in general, apples are likely to be kept at high prices, in France, next fall, the effect of which will be to better the margin for Canadian apple exporters, whether green, evaporated, chopped, dried or canned. Nuts and almonds have been damaged in some districts, but fortunately, prospects for Grenoble walnuts look very promising and lower prices than those quoted for last year are anticipated.

## SURTAX ON GERMAN GOODS.

In accordance with the circular issued by the Canadian Customs Department, dated at Ottawa, April 17, 1903, I have sent a letter to all Presidents of the Chambers of Commerce and all principal traders and manufacturers associations in France and Algeria, to inform them of the extra duty to be levied in Canada from July 1, 1903, on German goods, and to give them the wording of the additional certificate to be added on invoices of goods exported to Canada.

## FRENCH TRADERS BECOMING INTERESTED IN CANADA.

As a result of my letter, an intercourse of correspondence with all the principal traders and manufacturers bodies throughout the country and Algeria is now established, which will, no doubt, benefit in the future to the Franco-Canadian trade relations, and both imports and exports. French exporters are paying more and more attention to Canadian market and French importers to Canadian resources. According to connections promoted, manufacturers and exporters of various Canadian specialties seem quite desirous to get acquainted with the outlet afforded to them by the French market. I may add that a certain development of Canadian exports to France should shortly result. Such is the opinion expressed to me, in their letters, by some of the leading Canadian manufacturers and exporters of the specialties inquired for in France.

I have the honour to be, sir,

Yours faithfully and respectfully,

A. POINDRON.

## ST. KITTS, NEVIS AND VIRGIN ISLANDS.

## REPORT OF COMMERCIAL AGENT.

(*Mr. S. L. Horsford.*)

ST. KITTS, June 22, 1903.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—I have the honour to acknowledge the receipt of your despatch of the 27th ultimo, inquiring whether any commercial travellers' tax is imposed in St. Kitts.

## NO COMMERCIAL TRAVELLERS TAX.

I am pleased to be able to reply that no tax, charge or restriction of any kind is imposed by our authorities on commercial travellers. On the contrary, every facility is afforded them for prosecuting their business, and exhibiting samples of their wares among the trading community.

## SHOULD SEND TRAVELLERS.

In a former report I recommended that the visits of these gentlemen should be encouraged as much as possible, as the best means whereby Canadian manufactures could be brought to the direct notice of our importers and as a means also of bringing

us in closer touch with your people, and as one traveller can easily embrace in his operations a variety of manufactures, the expenses of his visit can readily be divided between the several interests concerned. Importers are much more likely to buy goods, samples of which they can see for themselves, than to indent for them simply from a catalogue, and especially is this the case when a new trade is being opened up. The personal influence of the traveller also counts for much in obtaining orders, and this fact is well appreciated, and is utilized to its full by your neighbours across the border.

The visits of these men have also the advantage of familiarizing your manufacturers with the wants and special requirements of our markets, a feature of no mean consideration when catering for our trade.

#### ISLANDS HAVE INDIVIDUAL PECULIARITIES.

In each of the islands there are special peculiarities; each has its particular favourite as to style and quality, method of putting up and packing, &c., all of which can be best learnt by personal study, and my experience has proved that in every case where travellers have taken the trouble to come out and personally canvass for their wares a steady and permanent trade has resulted.

I am myself always very pleased to afford these gentlemen all information and assistance in my power.

I have the honour to be, sir,

Your obedient servant,

S. L. HORSFORD.

TENDERS FOR RAILWAY SUPPLIES IN SOUTH AFRICA.

Mr. James G. Jardine, writing from Johannesburg, under date of May 9, forwards a letter received from the chief railway storekeeper of Cape Colony with reference to tenders in Canada for locomotives, carriages, sleepers, &c. The chief storekeeper states that all orders for rolling stock and fittings, also for permanent way materials, are sent to the Agent General for Cape Colony, 100 Victoria Street, London, S.W.

In his opinion, however, he states that there is very little probability of Canada being able to compete for the requirements in the direction mentioned, owing to the fact that the chief supplies of deals, ceiling and flooring boards are principally of red Swedish timber, which are also ordered through the Agent General. Large quantities of timber are also purchased locally but only those on the spot.

## NEW TARIFFS.

During the month under review there have been distributed from this department to all the principal Custom-houses and Boards of Trade throughout the Dominion, copies of all foreign and colonial tariffs and supplements thereto, as furnished during that period by the International Customs Tariff Bureau, which are always available for reference by those interested therein, resident at the principal centres of trade. The following British and Colonial are supplemental to those published in the departmental Annual Report, 1893, and the quarterly and monthly reports since published, and comprise all additions thereto or changes therein, so far as the department has authentic advice:

### UGANDA PROTECTORATE CUSTOMS TARIFF.

#### I.—THE UGANDA CUSTOMS REGULATIONS, 1900, AS AMENDED BY THE UGANDA CUSTOMS ORDINANCE, No. 3, OF 1902.

1. The following customs duties shall be collected in respect of all goods imported into the Protectorate, 5 per cent on the value of all goods imported.

2. In the case of goods imported by water, the value shall be taken as the value at the first port in Uganda reached by the ship or vessel in which they are borne.

3. In the case of goods imported by land, the value shall be taken as the value at the nearest frontier post to the point at which the goods enter the Protectorate.

4. Until further orders no rebate or allowance shall be made in respect of any import duty previously paid at any place outside the limits of the Protectorate.

5. These duties are in addition to the road and wharfage dues now payable on imported goods.

## BRITISH EAST AFRICA PROTECTORATE.

### THE EAST AFRICA LIQUOR ORDINANCE, 1902.

(No. 27, of November 12, 1902.)

1. From and after the date hereof, no distilled or alcoholic liquors shall be imported into or sold or dealt in within the Protectorate otherwise than in accordance with this ordinance.

2. Distilled liquors may be admitted for the use of the non-native population only.

#### *Importation.*

3. No person shall import any distilled or alcoholic liquors into the Protectorate for the purposes of sale without a license.

4. (1) Licenses to import distilled or alcoholic liquors into the Protectorate for sale may be granted by such licensing authority and upon such terms and conditions as the Commissioner may by rules prescribe, provided that the fee for such license for the period of one year shall not exceed 1,000 rupees.

(2.) No person shall be entitled to demand a license as of right.

5. Distilled and alcoholic liquors may be imported into the Protectorate without license for the purpose of being consumed by the importer; but in the event of any question being raised as to the character of any importation of such liquors, it shall be deemed to be an importation for the purposes of sale unless and until the contrary is proved.

6. From and after the date of this ordinance, a duty at the rate of 2 rupees the gallon at 50 degrees of the Gay-Lussac alcoholometer, at the temperature of 15 degrees centigrade, shall be paid on all distilled liquors which are imported for sale, consumption, or use in the Protectorate. The said duty shall be augmented proportionally for each degree above 50 degrees, and shall be diminished proportionally for each degree below 50 degrees.

Provided that all such liquors consigned to importers in the Protectorate, and actually in transit at the date of this ordinance coming into force, shall be admitted at the rates and in the manner previously existing.

7. The duty upon wines, beers and other fermented alcoholic liquors will be payable at the rate of 5 per centum upon their value as heretofore.

8. The Commissioner may make rules for the bonding of any distilled or alcoholic liquors, and for the testing of any distilled liquors imported into or manufactured in the Protectorate.

## CANADA.

### I.—CUSTOMS TREATMENT OF IMPORTED NURSERY STOCK.

(Customs Circular No 1197 B, of August 1, 1902.)

The following Consolidated Regulations, with the Acts appended, are substituted for Memos. 976 B, 981 B, 1089 B, 1090 B, and 1130 B, for the guidance of Customs Officers in regard to Nursery Stock imported into Canada *through the mails*, or by railway, vessel or other conveyance :—

1. Under "The San Jose Scale Act," passed March 18, 1898, the importation into Canada of any trees, shrubs, plants, vines, grafts, cuttings or buds, commonly called Nursery Stock, from any place to which the Act applies, is prohibited.

2. By an Order in Council approved 18th March, 1898, the said Act prohibiting the importation of Nursery Stock is declared to apply to Nursery Stock from the following countries, viz.: United States of America, Australia, Japan, Hawaiian Islands.

3.—By an Order in Council approved 18th March, 1898, plants exempted from the operations of the above mentioned Act are as follows:—

(a.) *Greenhouse plants with the exception of roses*, (such as Palms, Ferns, Orchids, Cacti, Chrysanthemums, Azaleas, Begonias, and Carnations, but not roses or any other woody plants.)

(b.) *Herbaceous perennials*, (the tops of which die down in winter, such as Perennial Phlox, Dielytra, Peonies, Perennial Sunflowers, etc.)

(c.) *Herbaceous bedding plants*, (such as Geraniums, Coleuses, Verbenas, Pansies, etc.

(d.) *All conifers*.

(e.) *Bulbs and tubers*, (such as Lilies, Hyacinth, Narcissi, and all other true bulbs, Gladioli, Caladium, Irises, Cannas, Dahlias, etc.)

4.—By an Order in Council approved 25th April, 1900, permission is given for the importation of *roses in leaf and in a growing condition which have been propagated under glass*.

5.—By an Order in Council approved 5th January, 1901, Nursery Stock may be imported if fumigated at the following Customs ports *during the periods undermentioned*, viz.:—

At St. John, N.B.; St. Johns, Que.; Niagara Falls, Ont.; Windsor, Ont.; Winnipeg, Man.: From 15th March to 15th May in the spring and 7th October to 7th December in the autumn.

At Vancouver, B.C., during the winter months only, from 15th October to 15th March.\*

Wines and Spirituous liquors may also be delivered ex-warehouse as Ship's Stores in the following special instances, viz.:—

(1.) To Steamers bound on a voyage to an ocean port outside of Canada.

(2.) To Yachts of not less than 50 tons register, belonging to a recognized Yacht Club bound on a voyage to an ocean port outside of Canada.

## III.—CESSATION OF BRITISH PREFERENTIAL TARIFF IN CANADA FOR NEW SOUTH WALES.

(Customs Circular No. 1217 B, of January 23, 1903.)

By Order in Council dated January 23, 1903, New South Wales has been removed from the list of British Colonies entitled to the benefits of the British Preferential Tariff.

\* In virtue of the Order in Council dated January 15, 1903, the importation of Nursery Stock is permitted in Vancouver from the 15th October to the 15th April. (Customs Circular No. 1215 B.)

IV.—PROHIBITION TO IMPORT ANIMALS AND ANIMAL PRODUCTS FROM CERTAIN STATES IN THE UNITED STATES OF AMERICA.

(*Customs Circular* No. 1220 *B*, of February 10, 1903.)

The Order in Council quoted in Memo. 1211 *B*, of 15th December, 1902, as amended on 7th February, 1903, now reads as follows:—

Owing to the prevalence of an infectious disease affecting animals known as ‘Foot and Mouth’ disease, it is ordered that the introduction or importation into Canada of cattle, sheep or other ruminants or swine, or their skins, hides, horns, hoofs, wool or bristles coming from the States of Maine, Vermont, New Hampshire, Massachusetts, Connecticut or Rhode Island, forming part of the United States of America, shall be prohibited until otherwise ordered, *except* that animals not previously having been in any of the said quarantined States may pass from one part of Canada through the said State of Maine by the Canadian Pacific Railway to another part of Canada: provided said animals be so carried in bonded cars sealed, that they cannot be removed from said cars while within the said State of Maine.

Provided, however, that the dried or pickled or salted green cured skins or hides, and the horns, hoofs, wool and bristles of cattle, sheep or other ruminants or swine may be imported into Canada when originating outside of the said six States and not produced from animals grown or slaughtered in any of the said six States, although shipped through the said six States (subject to Regulations made by the Minister of Customs, approved by the Minister of Agriculture.)

V.—AMENDMENT OF THE CUSTOMS TARIFF.

(*Customs Circular* No. 1227 *B*, of April 17, 1903.)

The following resolutions for the Amendment of the Customs Tariff, 1897, introduced by the Minister of Finance in Parliament on April 16, 1903, are to be observed as in force, until otherwise ordered, viz.:—

That it is expedient to further amend and Customs Tariff, 1897, to the following effect:

*A.*—That the following Sections be added to the said Act:

The Governor in Council may by Order in Council direct that a duty of seven dollars per ton shall be imposed in Schedule *A* on all iron and steel railway bars, or rails, in any form for railways, imported into Canada; and from and after the publication of such Order in the *Canada Gazette* such duty shall be levied, collected and paid on all such rails; and thereafter item 238 in Schedule *A* and item 585 in Schedule *B* shall be repealed:

Provided, however, that such Order shall not be passed until the Governor in Council is satisfied that steel rails of the best quality, suitable for the use of Canadian railways are being manufactured in Canada, from steel made in Canada, in sufficient quantity to meet the ordinary requirements of the market.

Articles which are the growth, produce or manufacture of any foreign country which treats imports from Canada less favourably than those from other countries may be subject to a surtax over and above the duties of Schedule *A*, such surtax in every case to be one-third of the duty as fixed by such Schedule *A*;

Such surtax shall also apply to any articles the chief value of which was produced in such foreign country although it may have been improved, or advanced in value, by the labour of another country notwithstanding the provisions of the British Preferential Tariff and Regulations thereunder.

Such surtax shall not apply to any goods actually purchased on or before the 16th of April, 1903, by any corporation, firm or person in Canada for immediate transportation to Canada.

*B.*—That the period of exemption from duty of machinery of every kind and structural iron and steel for use in the construction and equipment of factories for the manufacture of sugar from beet root, be extended to the 30th day of June, 1904.

*C.*—That item 409, in Schedule *A*, respecting duty on ships and other vessels built in foreign countries and applying for Canadian register, be repealed.

*D.*—That machinery and appliances of a kind not made in Canada for exclusive use in alluvial gold mining be added to the free list, until June the 30th 1904.

NOTE.—In connection with Tariff item 409, which is no longer in force, Collectors are reminded :

(*a.*) That a duty of 25 per cent *ad valorem* is to be collected on foreign built British ships applying for License to engage in the Coasting Trade as set forth in Mem. No. 1203 *B* ;

(*b.*) Also that Gasoline Yachts, Electric and Steam Yachts and pleasure boats of all kinds unregistered, or foreign built, are to be rated for duty at 25 per cent *ad valorem* on importation for use coastwise in Canada.

N.B.—Notice will be given when the duty on Steel Rails comes into effect.

#### *Surtax on goods imported from Germany.*

The Minister of Customs has decided that the goods of Germany are subject to surtax in Canada under the terms of the Tariff Resolutions.

The Tariff Resolutions contain the following proviso regarding the Surtax, viz. :

‘Such surtax shall not apply to any goods actually purchased on or before the 16th day of April, 1903,\* by any corporation, firm or person in Canada for immediate transportation to Canada.’

Goods claiming exemption from surtax under the above proviso should be imported or taken out of Warehouse and *entered for duty* on or before 30th June, 1903.

### SOUTH AFRICAN CUSTOMS UNION.

#### I.—THE ANGORA EXPORT DUTY ACT 1901, IMPOSING DUTY ON ANGORA RAMS AND EWES EXPORTED FROM NATAL.

(*No 12, dated July 30, 1901.*)

Under this Act, every Angora ram or ewe exported from Natal is liable to a duty of £100. Provided always, that no such duty will be payable on the export of any such ram or ewe to any South African State which shall, by its own Legislature, have imposed a duty not less than the amount fixed by this Act.

The present Act is to take effect from a date to be fixed by Proclamation, which shall not be made until the Governor shall have ascertained that the Governments of the Colony of the Cape of Good Hope (†) and of the Province of Mozambique have made similar provision for prohibiting or restraining the export of Angora rams and ewes.

#### II.—CUSTOMS DUTY ON BEER IMPORTED INTO NATAL FROM ANY COLONY OR STATE IN THE CUSTOMS UNION.

(*Act No 37 of 1901, dated August 27, 1901.*)

This Act provided for a Customs duty of 2d. per gallon upon beer brewed in any Colony or State which is a party to a Customs Union with Natal and imported into Natal by land or sea.

\* By notification of the High Commissioner for Canada, German goods purchased by an importer in Canada prior to the 17th April 1903, for immediate transportation are to be exempt from the surtax if imported before the 1st October of same year.

(†) The Cape of Good Hope Government has already made provision by an Act (No 21 of 1899) which was promulgated on 13th October 1899.

By Proclamation No 11 of 1903, published in the *Natal Government Gazette* January 27, 1903, the above Act was to take effect as from 1st February, 1903.

III.—PROCLAMATION OF THE GOVERNOR OF THE COLONY OF THE CAPE OF GOOD HOPE,  
DATED MARCH 20, 1903, PREVENTING AND REGULATING THE INTRODUCTION  
OF CERTAIN GOODS INTO CAPE COLONY.

(*Cape of Good Hope Government Gazette* of April 3, 1903.)

This Proclamation provides :

I. The introduction into Cape Colony of trees, plants and portions thereof—such as cuttings, roots, tubers and bulbs—and of fruit of all kinds, grown elsewhere than in South Africa is prohibited, save and except by sea through the Ports of the Colony or by Post.

2. The importation of the following articles is hereby absolutely prohibited :—

(a.) Grape vines or any portion or fruit of any grape vine, with the exception of vines or portions thereof imported by the Government under such precautionary measures as it may deem necessary.

(b.) Coffee plants or any portion thereof, with the exception of seed.

(c.) Eucalypt plants or any portion thereof, with the exception of seed.

(d.) Stone-fruit trees or any portion thereof, including seeds, that were grown or produced in any state, province or territory of the United States of America or the Dominion of Canada, in which either of the diseases known as Peach Yellows or Peach Rosette exists.

(e.) From and after the 1st day of January, 1904, peach stocks and peach stones from any country whatsoever.

3. From and after the 1st day of January, 1904, the importation of any fruit-tree or portion thereof, with the exception of fruit, seed, seeding stocks for budding or grafting purposes, and blight-proof stocks for apples, shall be allowed only by special permission from the Minister of Agriculture. No permit shall be granted for the introduction of more than ten trees or one hundred cuttings of any one variety, nor shall permits be issued for more than an aggregate of one hundred trees or one thousand cuttings to any party during one year.

IV.—ABOLITION OF TRANSIT DUTY ON GOODS IMPORTED THROUGH CAPE COLONY IN  
DESTINATION OF THE TRANSVAAL.

(*Cape of Good Hope Government Gazette* of April 14, 1903.)

Under and by virtue of Section 5 of the Customs Union Tariff Act No. 1 of 1889, His Excellency the Governor, with the advice and consent of the Executive Council, has directed it to be notified that on and after the 24th April, 1903, the 'Transit Duty' on goods imported through Cape Colony for the Transvaal will be abolished.

V.—ABOLITION OF TRANSIT DUTY ON GOODS IMPORTED THROUGH NATAL INTO THE  
TRANSVAAL COLONY.

(*Natal Government Gazette* of April 24, 1903.)

By Proclamation No 47, dated April, 24, 1903, the Governor in Council proclaims and makes known that from and after the 24th April 1903, the transit duty payable on certain goods imported through Natal into the Transvaal Colony is abolished.

## COMMERCIAL AGENCIES.

The undermentioned Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

The Department of Trade and Commerce also invites correspondence from Canadian exporters or importers upon all matters pertaining to trade, and will cause special inquiries to be made by the Commercial Agents into any subject of general interest when so desired.

Such reports as have been received since the publication of the last monthly report of this department are appended.

These reports will be sent free to points in Canada upon application to : 'THE DEPARTMENT OF TRADE AND COMMERCE, OTTAWA.'

Until the details of the trade are obtainable an analysis cannot be made and a fair estimate of the effects of the drought be obtained. A very prominent feature of the export is that of gold, amounting to nearly twenty million pounds, an increase over that of the previous year. All the States show decrease in exports except Tasmania, which had a very prosperous season. The unusual importations of breadstuffs will reduce the importations of other goods to much lower figures than those given above would indicate.

## NEW ZEALAND.

The total trade of New Zealand for the same periods was :—

|               | 1901.       | 1902.      |
|---------------|-------------|------------|
| Imports. .... | £11,817,915 | 11,132,348 |
| Exports. .... | 12,884,424  | 13,663,357 |

These figures show the sound position of business in this colony.

## NEW SOUTH WALES AND QUEENSLAND.

The trade of New South Wales and Queensland is in rather more than its usual winter torpidity. In the latter not so much so as in the former where the effects of the drought are in reality beginning to be felt. The travellers in the country of many houses have been recalled as the amount of the orders do not cover expenses. There is a strong feeling of hope for a great improvement after the next harvest. The past month has been favoured with heavy and widespread rains covering nearly all Australia. The crops are reported to be in a promising condition and grass in good supply. There will be a short crop of wool owing to the diminished flocks, but a good lambing is anticipated which in a couple of years will greatly improve the pastoral position. Fine wool promises to bring high prices next season and may reach record figures. If so, the short crop will bring nearly as large a sum as the better yields of a few years ago.

## FOODSTUFFS.

The market for wheat has continued to be nominal throughout the month, sellers being much more numerous than buyers. For the five months of the year ending with May the arrivals of foreign wheat and flour for Australian consumption, since the beginning of the year, amount to 6,499,703 bushels wheat and 51,360 tons flour—together equivalent to 8,694,983 bushels, or 240,133 tons of wheat. The total of 8,964,983 bushels includes 3,282,755 bushels at Melbourne and 4,901,764 bushels at Sydney. The amount contracted for and not yet to hand cannot be definitely ascertained, but if three hundred thousand tons were needed to carry the country to November next it appears as if the whole quantity had been arranged for. Prices are lower and Manitoba flour has dropped to £12 per ton.

## HIGH RATES FROM VANCOUVER.

The demand for oats is being fully supplied from New Zealand at prices too low for Canada to compete, particularly at the prevailing rates of freight from Vancouver. Cargoes of Argentine maize had been contracted for but in view of the diminished demand and lowering of prices the importers have paid a stiff penalty to have the contracts cancelled.

## BACON.

Provisions have been affected by the improved outlook and bacon, hams, butter and frozen hogs are just now too low to be imported. Bacon has fallen from a shilling per pound to eight pence.

## GOLD.

The yield is increasing. The returns for the first five months of the four principal States are :—

|            |               |            |                |
|------------|---------------|------------|----------------|
| 1903. .... | 1,738,953 oz. | 1902. .... | 1,444,549. oz. |
|------------|---------------|------------|----------------|

A gain of nearly twenty per cent. The good rains enable both mining and prospecting to be carried on more extensively and the results will help materially in tiding over the present bad time.

#### CANADIAN TRADE.

This is largely featureless. Little direct effort is being made from Canada, and Australians who have gone there in search of connections report but little success, and this state of things is likely to continue until the Canadian manufacturers' catch up with the home demand. The houses established here report good business. There has been sharp competition in agricultural machinery with cutting of prices in some lines to an unremunerative basis. Collections have necessarily been poorer in consequence of the drought. There are brighter prospects ahead. In some lines the sales have been very good, in a few, increased trade being reported.

#### FREIGHT RATES.

Freight rates from New York are reported steady, being very much lower than rates from England. Canadian shippers need to carefully watch this item of cost, as now and again I receive information that United States goods are landed at lower charges. The importance of freight is illustrated in the movements of grain to this port from the Pacific Coast. I am advised that cargoes recently arrived from San Francisco were carried at ten shillings per ton while at the time these were loaded double the rate was asked from Vancouver. The United States Sound ports had nearly as great advantage at times over Vancouver, and this together with the inability to load promptly when orders could be secured lost that city the trade it should have had. The difference was equal to from three to four cents per bushel of wheat and no amount of activity or sentimental desire to try British products here would overcome so great a margin. It has frequently occurred that the cost of landing a United States and a Canadian article via New York has been from five to ten per cent, in favour of the former. Often the United States shipment from an established trade has been in car lots to New York, and the Canadian in less. In such cases the difference is even wider. I have more than once suggested that a first-class Canadian firm could find a profitable opening in making a speciality of export shipping.

#### THE PACIFIC CABLE.

The Postmaster General of the Commonwealth, like the Postmaster General of New Zealand, has been empowered to employ canvassers to push the business of the Pacific cable. If my information is correct that this provision is for only three months it is a very imperfect one. The difficulty will be to get suitable persons to undertake the work for so short a period and in three months even a competent man would scarcely get in touch with the business. The business in New Zealand is estimated to amount to £88,000. At the old rates that Colony would have had to pay £142,000 for the same volume. The *Trade Review* of this city estimates the saving effected to Australia at over £150,000 through the operations of the Pacific cable. Australia has, therefore, a large reduction to compensate for its share of the losses in the working of the cable and can look with more equanimity upon them than Canada can. I am satisfied that to get the best results the Pacific cable must have officers under its own control to push its business. The Post and Telegraph officials of the Commonwealth are so fully occupied with their own arduous duties that they cannot be expected to give the special attention to the interests of the Pacific cable that they require.

I have the honour to be,

Your obedient servant,

J. S. LARKE.

## AUSTRALIA.

REPORT OF COMMERCIAL AGENT FOR VICTORIA, SOUTH AUSTRALIA, WESTERN AUSTRALIA  
AND TASMANIA.

(Mr. D. H. Ross.)

MELBOURNE, AUSTRALIA, June 13, 1903.

The Right Honourable  
The Minister of Trade and Commerce,  
Ottawa.

SIR,—The Right Honourable C. C. Kingston, P.C., the Minister of Trade and Customs, granted me a pleasant interview, in which he asked me to 'assure the Canadian government that he would only be too happy to afford its commercial agent in Melbourne every facility in his power to secure any required information.'

## CHANCE FOR CANADIAN AGRICULTURAL MACHINERY.

Considerable interest was manifested at Port Melbourne a few days ago, when 250 tons of agricultural machinery were being loaded on the R.M.S. *Omrah*, for shipment to Buenos Ayres (South America) via London. The shippers were a Melbourne agricultural machinery firm, who make the 'complete harvesters,' and they are to be used in the Argentine during the coming season. The complete harvester is a purely Australian production, being a local invention. Last year the machines sent to the Argentine gave excellent satisfaction. The manufacturers sent a similar shipment this year to San Francisco, so that already 500 tons of Australian machines have been shipped to North and South American markets. It is likely that the manufacturers would be glad to entertain proposals from manufacturers for making their machines in Canada, and I will be glad to be of service in this connection.

## 'NEWS'—PAPER ON ROLLS.

Yesterday a contract totalling over \$90,000 per annum was made by the proprietors of a leading Melbourne daily, with a representative of a large U.S.A. paper company. The amount in question involves scarcely half of the paper required by this newspaper alone. If Canadian manufacturers of paper will send me samples and quotations upon a C.I.F. & E. basis, (in other words 'ex ship slings' including exchange) I will be glad to interest buyers throughout the territory allotted to me. Payments for paper are generally made 'on demand' against documents, in London.

## TRADE IN VICTORIA DEPRESSED.

General trade in the State of Victoria is rather depressed, being the result of the long drought, which is now, happily, at an end. Splendid rains have fallen all over Australia—except in a few isolated instances—and the area under cereals is much larger than usual.

## TASMANIA.

Owing to its regular rains, Tasmania has reaped much benefit during the long drought on this continent. Trade conditions on 'The Island State' are in an exceedingly prosperous condition.

## SOUTH AUSTRALIA.

South Australia promises to have wheat for export after the coming harvest if the season continues as favourable as at present.

## WEST AUSTRALIA.

West Australia is the one state in the Commonwealth where trade conditions have continued to steadily advance. The output of gold promises to be a record this year.

## CORRESPONDENCE INVITED.

It is my intention to visit Tasmania, South and West Australia, later on in the year, closely studying the various classes of goods which Canada should export. Any information supplied to me by your department—or direct by manufacturers or exporters, is assured of being circulated in the best channels.

I have the honour to be, sir,

Your obedient servant,

D. H. ROSS.

Mr. Ross forwards a copy of a minute issue from the Department of Trade and Customs, relative to 'charges shown on invoices,' which is printed elsewhere, under 'General Commercial Information.'

## NORWAY, SWEDEN AND DENMARK.

## REPORT OF COMMERCIAL AGENT.

(*Mr. C. E. Sontum.*)

CHRISTIANIA, NORWAY, June 30, 1903.

To the Right Honourable  
The Minister of Trade and Commerce,  
Ottawa.

## COMMERCIAL TRAVELLERS TAX.

SIR,—I have below the honour to reply to your inquiry of May 27, in reference to the Commercial Travellers Tax in Norway.

The law referring to this tax is of July 27, 1896, and reads, translated :

1. Foreigners or in foreign countries living and not in Norway tax-paying Norwegian subjects, who with or without samples travel throughout the country and for own account or as somebody's representative, offer, start or close a deal for merchandise which is later to be delivered from foreign countries, shall on their arrival to this country take out a pass of commerce at the nearest police-court.

This rule does not apply to Swedish subjects, who in the same manner offer or close a deal in Swedish natural produce or manufactured goods, as long as Norwegians enjoy the same privilege in Sweden.

'2. The pass is to be paid in advance with kroner 100 (\$1.00 = Kr. 3.75) per calendar month and is not made out for less than one month, but it may be made out for a longer period at once, however only for full months, and the whole tax is then to be paid in advance. The money which thus comes in goes to the state treasury.'

‘3. It is the duty of the police authorities in the different parts of the country to control that commercial travellers are in possession of such pass, and every such traveller is under duty to present his pass for the police in all places, where he is trying to do business. The police shall testify to the pass being presented without any extra charge.

‘4. Trespassers against this law are liable to fines from kroner 100 to kroner 500, and besides, the tax mentioned in No. 2 is to be paid for the whole time during which the unlawful trade has been carried on.

‘5. The form and text of the pass and other reglementary provisions, which are made necessary by this law are stipulated by H. M. the King.’

#### WOOD PULP PRICES WILL IMPROVE.

At a meeting of the Traemasseforenings (wood-pulp-association) on Monday, June 22, the following resolution was passed.

‘The increased demand generally lacked at this season of the year induces to hope that, owing to the restriction of the output, prices will soon improve to the benefit of those settlers who are presently holding off.’

I have the honour to be, sir,

Your obedient servant,

C. E. SONTUM.

#### TRINIDAD AND TOBAGO.

##### REPORT OF COMMERCIAL AGENT.

(*Mr. Edgar Tripp.*)

PORT OF SPAIN, TRINIDAD, June 30, 1903.

The Right Honourable  
The Minister of Trade and Commerce,  
Ottawa.

#### REMOVAL OF SUGAR BOUNTIES.

SIR,—In a review of the trade and commerce of this or any other West India colony for the twelve months ending March 31, all else pales into insignificance beside the one most important fact that, thanks to the Secretary of State for the Colonies, it has at last been agreed by all the Powers interested that the incubus of bounties which has so long weighed down these islands is to be finally removed from September next.

#### REVIVING SUGAR INDUSTRY.

Once more placed upon fair and even terms with the products of other lands, the sugar industry for which the soil and climate of these islands are pre-eminently fitted will probably, if not certainly, reassume its former importance. It is an acknowledged

fact that no other agricultural industry is capable of supporting in proportion to the value of the finished product so many people engaged in ordinary or skilled labour. Trinidad, fortunately, has other large and remunerative industries which have enabled her to continue in a career of steady progress through the stress of adverse weather which has wrought such grievous ruin upon some of her once prosperous neighbours. But the sugar planters of Trinidad and the merchants and proprietors in the old country interested in estates here have sorely suffered during many years. Few of them have been brave enough or wealthy enough to continue the struggle. It may fairly be hoped however, that the survivors will reap their long delayed reward.

EXPORTS AND IMPORTS LARGE.

Apart from the product of sugar, the value of which was less by £140,000 than the previous year, and by £210,000 less than the average annual value of the preceding ten years, the import and export trade of the colony was exceptionally large. This is in a measure to be accounted for by the fact that during the recent trouble with Venezuela the British squadron altogether, and the German and Italian ships to a certain extent, made Port of Spain the headquarters of their blockade operations against the coast of the opposite republic. But apart from this circumstance, the actual increase in value of general exports from the colony justifies and explains the increase in the value of imports.

INCREASE WITH CANADA.

It is very satisfactory to note that the decrease in trade with foreign countries has been more than compensated for by the increase with the mother country and our sister colonies, and it is specially gratifying to me to note that proportionately the most marked increase in our imports has been from the Dominion of Canada, as follows :—

## GRATIFYING INCREASES SHOWN.

The above figures indicate that the value of fish imported has approximately doubled within the last three years, the total for 1900 having been £39,245, but the considerable advance during the past year is probably attributable in some degree to the falling off of the importation of oxen for slaughterage purposes owing to the troubles in Venezuela rendering the price of beef to the poorer classes to a certain extent prohibitive. The considerable rise in the value of oats may also be due partly to the fact of direct importation in place of shipments via New York. The steady advance in butter and cheese is satisfactory as being the undoubted result of the growing appreciation in our markets of these articles. The improvement generally in manufactured articles other than foodstuffs is gratifying. Canadian cordage and twine and boots and shoes have evidently come to stay. What is known as Patent Manilla rope, although not quite equal to the real article, is much cheaper and good value. Formerly all this came

from the United States, but I learn from importers that the Canadian manufacture is now preferred. Canadian boots and shoes are, as the figures prove, growing in favour, and repeat orders are being despatched. They are acknowledged to be strong and of good value, but I still hear that they lack the finish of similar articles from Europe and the United States. Some attention under this head would go far to materially increase the already expanding trade. Unmanufactured leather has also, except in one instance, been found of good value, and an increasing trade may, with proper care, be anticipated. Some trial shipments of umbrellas are also very well spoken of, and one or two trial shipments of Scotch tweeds have proved to be satisfactory, the weight and value being good. Canadian ladies' corsets are also becoming quite a feature in the trade here.

DECREASES REPORTED.

In the following items a falling off must be reported :—

|                           | 1901-2. | 1902-3. |
|---------------------------|---------|---------|
| Flour .....               | £12,726 | £11,173 |
| Timber .....              | 9,150   | 7,492   |
| Soap .....                | 168     | 41      |
| Furniture .....           | 102     | 86      |
| Horses .....              | 195     | 105     |
| Musical instruments ..... | 204     | 39      |
| Paint .....               | 344     | 264     |

CANADIAN FLOUR IN FAVOUR.

The slight falling off in flour after the considerable jump of the previous year is not easily explained, as there can be little question that the Canadian article has gradually outgrown the former prejudice and is generally acknowledged to be excellent. The total importations were 207,847 barrels against 200,569 in the previous year, Canada's contribution being 12,428 barrels, so that there remains ample room for considerable extension of business in this special product of the Dominion.

THE SOAP TRADE.

I have before pointed out how important the soap trade of the colony is. Our total imports for year under review amounted to 4,384,440 lbs. of a value of £36,035, being an object lesson which I trust will commend itself to your manufacturers whose total shipments came to £41.

FURNITURE.

Canadian furniture, as far as one can judge from the insignificant quantities so far received, is well made and very suitable both as to price and quality for the local trade.

PAINTS.

Paints received from Halifax have turned out well and have satisfied those who have given them a trial. There is no reason why this trade should not have extended instead of shrunk, beyond the fact that European manufacturers have more persistently 'hustled' for the sale of similar wares. In the course of conversation on the subject with several of our leading dealers, I was struck with the unanimity of their opinion that other lines of manufactures could be introduced if persistent efforts were made.

## MORE ENTERPRISE NEEDED.

It seems the general opinion that up to the present time the attempts to promote Canadian trade have been spasmodic. In contrast to this, one prominent importer instanced the fact that in addition to regular visits from commercial travellers representing American houses, some of these firms are now sending by each steamer samples of all new goods they are placing in the market with special code words to enable all or any of them to be ordered by telegraph, if necessary.

## BROOMS.

Canadian brooms are spoken well of everywhere, and have taken a firm hold of the trade.

## TRADE STATISTICS MISLEADING.

As remarked in previous reports, the statistics of trade given cannot be relied upon as representing the total business actually done, inasmuch as considerable orders for goods from the Dominion still go through the hands of agents in New York, and the goods are shipped from United States ports. It has again been stated to me, and it is a circumstance worth the consideration of your exporters, that a saving is effected as a rule by importing through New York, as the merchants there obtain discounts from Canadian manufacturers which are not granted when the goods are purchased direct.

## EXPORTS.

For year ending March 31, the total value of exports from this

Against values in three previous years as follows :—

|------------|------------|------------|
| £2,418,975 | £2,475,023 | £2,372,150 |

Transhipments are included in above figures. These for 1902-3 only amounted to £264,933, owing to partial cessation of trade with Venezuela during the blockade, compared with £519,530 in 1901-2, so that apart from transhipments the export trade indicates healthy progress.

## INTERESTING DIAGRAMS,

Some interesting diagrams with explanatory tables have been published by the collector of customs, from which I gather the following averages of exports for periods named, viz. :—

|                                     |            |
|-------------------------------------|------------|
| 1881-5, annual average value.....   | £1,614,378 |

| 1896-1900   "       "       .....   | 1,956,052  |
| 1901-2       "       "       .....  | 1,981,553  |
| 1902-3       "       "       .....  | 2,301,810  |

(Certain deductions made from transhipments for comparative purposes.)

IMPORTS GREATER THAN EXPORTS.

The value of exports has been below that of imports by from 5 to 10 per cen during each period except 1886-90.

EVIL OPERATION OF BOUNTIES.

The evil operation of bounties is evidenced by the table in respect of sugar, especially in comparison with the statistics of our cocoa trade which has been happily free from the same unfair competition.

|                             | Sugar.   | Cocoa.   |
|-----------------------------|----------|----------|
| 1876-80 annual average..... | £800,621 | £306,973 |
| 1881-5           ".....     | 755,305  | 344,560  |
| 1886-90         ".....      | 715,299  | 485,968  |
| 1891-5         ".....       | 658,097  | 550,677  |
| 1896-1900     ".....        | 620,814  | 664,293  |
| 1901-2         ".....       | 452,210  | 847,416  |
| 1902-3         ".....       | 410,000  | 907,531  |

These figures form a very eloquent illustration of the pitiful tale of the harassed sugar industry, before which, however, it is now confidently hoped a brighter time is dawning.

NEW YORK SUGAR MARKET.

It is significant that notwithstanding the countervailing duties against beet-root sugar imposed by the United States, the bulk of our sugars have since 1901 gone to the United Kingdom. Whether this is due to the action of trusts or to increasing home supplies in America, it is hard to say, but the fact remains that New York is not improving as a market for West Indian cane sugar.

COCOA.

On the other hand there is an increasing demand for cocoa in the United States, which in 1902-3 for the first time received more of this product than Great Britain, the figures being 12,500,000 lbs. and 8,500,000 lbs. respectively.

ASPHALT.

Asphalt was exported in 1902-3 to the value of £170,563—a record. Twenty years ago the average was under £40,000.

EXPORTS TO CANADA.

The steady progress in the volume of exports to Canada marked since 1896, received a check in the year under review when the value sank to £31,545 from £47,098 the previous year.

DECLINE IN CANADIAN PURCHASES.

This is at once accounted for by the falling off in sugar from £31,340 to £6,488. A change for the better will probably result from the recent tariff measures in respect to Canadian imports from Germany, but it is not easy to explain why in face of a preferential rate, so heavy a decline in Canadian purchases of Trinidad cane sugar should have occurred. One large exporter gives as the reason that matters are so arranged amongst the limited number of buyers in the Dominion that prices there are the exact equivalent of those obtained in New York. The latter market is preferred for the reason that account sales are received in half the time compared with returns from Canada or the United Kingdom.

## COCOA EXPORTS.

Exports of cocoa to Canada, over and above a quantity via New York, were 1,910 bags valued at £8,464, against 1,125 bags valued at £6,260 in 1901-2. Canada does not seem to take so kindly to this article as might be expected. The consumption elsewhere is increasing rapidly, and one would have thought it specially suitable in many respects to the Canadian climate and the tastes and conditions of the people.

## ASPHALT IN CANADA.

I am sorry to note that we only sent 274 tons of asphalt to British North America in place of 3,438 tons the previous year. The total exports from the Colony were 159,136 tons.

## TONCA BEANS.

Tonca beans figure in our Canadian list to the value of £2,500, but I learn from the shipper that the destination was New York, advantage of freight offering via Canada having been taken. These beans are used largely in America and the continent of Europe for flavouring tobacco, &c., but do not seem so far to have made headway in the Dominion.

## MOLASSES AS A CATTLE FOOD.

The value of molasses shipped to Canada fell from £3,500 to £1,931. In this connection a new and perhaps more remunerative outlet for molasses as an ingredient in cattle food has been found. The inventor of this food, which is called 'Molascuit,' is Mr. George Hughes of 155 Fenchurch Street, London. It is composed of 20 per cent dry sugar Uegass meal and 80 per cent molasses minimum 40° B. The shipments already made to Great Britain give fair prospects that there will be a large demand for this article for feeding and fattening cattle. With a view to encouraging the new industry the West Indian Committee urged upon the Chancellor of the Exchequer that the sugar duty in the case of foods manufactured from molasses should be remitted. Mr. Ritchie dealt with the matter most promptly, and in the course of discussion on the Finance Bill announced that molasses containing less than 50 per cent of sweetening matter is to be admitted duty free. I commend 'Molascuit' to the attention of persons interested in the Dominion.

## HIDES AND SKINS.

The most noticeable feature in our exports to Canada is in hides and skins. The total value in 1901-2 was £12,609, of which the United States took £3,945, and Canada £1,042. For 1902-3 the total was £21,981, but of this £10,091 went to British North America against £6,321 to the States. This increase is due to the keen interest some of your buyers are taking in the trade. One firm has a special representative on the spot to purchase solely for their account.

## MANJAK EXPORTS CONTINUE.

The new product of the mine, Manjak, continues to find a good outlet both in the United States and Great Britain, where its use for insulating and other purposes is recognized. Looking at the increasing scarcity and value of India rubber, the demand for manjak is not likely to diminish. There are two mines here, Vistabella, whose agents are Messrs Arkell & Douglas, New York, and Marbella, which is represented solely in Canada by Messrs. Robert Crooks & Co., Montreal, to whom all inquiries can now be made.

## COCOANUTS.

10,631,628 cocoanuts comprise the year's shipments, but only 3,800 of these for Canada. Probably Jamaica offers a nearer and therefore better market for your requirements. The manufacture of cocoanut oil is becoming an important industry here, thanks to the imposition of an import duty upon this article, which formerly came almost altogether from abroad. There is a large local consumption of this oil amongst the East Indian population, but I note that an export trade is also being built up, e.g. :

| 1901-2.                  | 1902-3.                  |
|--------------------------|--------------------------|
| 15,944 gallons = £1,660. | 25,885 gallons = £3,224. |

nearly all going to the United States.

## COPRA.

Copra, the product of the cocoanut, is now also quite an item in our trade, the shipments for the past two years amounting to 2,487,032 lbs., value £9,537, and 1,536,065 lbs., value £8,435, respectively. The United Kingdom, Germany and Holland are the principal customers. I do not find that any oil or copra has gone to Canada. Is there no demand for either?

## TONNAGE OF IMPORTS.

An interesting statement has been obtained by the new Colonial Company, Ltd., of which they have furnished me with a copy, giving the tonnage of goods brought by steamers during 1902, as follows :—

|   | Tons.  | Tons.   |
|---|--------|---------|
| From New York, by Trinidad line.....              | 38,046 |         |
| " " by La Veloce line.....                        | 843    |         |
|   |        | 38,889  |
| From United Kingdom, by London direct line.       | 16,395 |         |
| " " by Fredk. Leyland "                           | 9,370  |         |
| " " by Glasgow direct "                           | 5,658  |         |
| " " by Royal Mail "                               | 11,151 |         |
| " " by Harrison "                                 | 5,024  |         |
|   |        | 47,598  |
| From Holland, &c., by Dutch line .....            |        | 3,107   |
| " France, by Comp. Gen. Transatlantique line..... |        | 1,640   |
| " Germany, by Hamburg-American line.....          |        | 51      |
| " Various countries, by sundry steamers.....      |        | 23,202  |
| " Canada, by Pickford & Black line.....           |        | 5,336   |
| Total .....                                       |        | 119,823 |

It will thus be seen that nearly one-third of the general tonnage coming to this port is from the United States. Above statement merely refers to general cargoes which are landed into the steamers' warehouse, but is exclusive of coal, which has been received in several steamers and has not passed through the warehouse, being landed on the open wharf, or discharged direct into hulk.

I have the honour to be, sir,

Your obedient servant,

EDGAR TRIPP.

FRANCE.

REPORT OF COMMERCIAL AGENT.

(*Mr. Anatole Poindron.*)

101 Rue Réaumur, PARIS, June 30, 1903.

The Right Honourable  
The Minister of Trade and Commerce,  
Ottawá.

SIR,—The month of June has proved very profitable to all kinds of grain, fodders and meadows. Quantity will likely be below last year returns, but the quality is expected to be much more satisfactory.

POOR FRUIT CROP.

On the contrary, the poor fruit crop prospects, in pears and apples, are being realized day after day. As a consequence of it, business men in Paris, Bretagne, Normandie and Vendée, are very eager to get connected with Canadian exporters of choice table green apples and pears in cases, table green apples in barrels, cider green apples, dried and canned apples, and one amongst them is now on his way to Canada to try purchases of dried apples. I am, on my part, paying keen attention to the matter, and I hope to succeed satisfactorily to take opportunity of the actual mind of French importers to promote durable and profitable connections with Canadian exporters, and to induce some purchasers to take a trip to Canada. In fact I am in a situation to realize that the interest paid in France to Canada's import and export possibilities is steadily increasing, and I feel more and more confident in the results of the correspondence, quotations and trial orders which I have already succeeded to promote.

DUTIES ON CATTLE.

Before adjourning, the French Parliament has passed a law advancing the duty's rates to be levied on cattle, sheep and pork alive, and on fresh and salt meats of same, as follows :—

| TARIFF<br>ITEMS. | ARTICLES.  | TARIFF RATES. |          |

The above rates have not yet been put into force by the French Government, and probabilities are that they will not be before October next.

I have the honour to be, Sir,

Yours respectfully and faithfully,

A. POINDRON.

## MINUTE *re* CHARGES SHOWN ON INVOICES IN THE AUSTRALIAN COMMONWEALTH.

The Department of Trade and Commerce has received through the office of Mr. D. H. Ross, Canadian commercial agent, for Victoria, South Australia, Western Australia and Tasmania, a copy of a Minute (Order No. 17, 1903) *re* charges shown on invoices as issued by the Acting Minister of Trade and Customs for the Commonwealth of Australia to the Collector of Customs, which reads as follow :—

### COMMONWEALTH OF AUSTRALIA.

DEPARTMENT OF TRADE AND CUSTOMS, MELBOURNE, APRIL 9, 1903.

#### *Charges shown on Invoices.*

The following minute by the Acting Minister relative to the above is forwarded for your instruction :—

‘In view of the fact which is evident that in a very large number of invoices the charges are largely increased so that the value of the dutiable goods may be reduced and less duty paid thereon, it has been determined that the practice which has been followed of reducing the charges to an amount which is considered reasonable shall be discontinued, and in future, when the department is satisfied that the charges are too high, no allowance whatever will be made, unless conclusive proof of the actual amount paid is furnished.

‘The production of such an invoice is an offence under the Act, and a prosecution will be instituted and the goods forfeited in every case, unless very satisfactory explanation is given.’

GEORGE TURNER,

for Minister for Trade and Customs.

Publicity is to be given to this Order in the press.

HENRY PASSMORE,

for Comptroller General.

The Collector of Customs.

### NON-BRITISH IMPORTS TO SOUTH AFRICA.

The Central Bureau for Preparing Commercial Treaties, of Berlin, publishes the following, under date of June 15, 1903.

It has already been pointed out in the press that the impending differentiation of non-British imports to South Africa is even more severe on America than on Germany.

In the fiscal year ended June 30, 1902, America exported to South Africa goods to the value of £5,300,000 (\$25,792,500). In this amount the shipments which found their way to South Africa via Portuguese harbours on the east coast were not included.

Compared with the previous year, this means an increase of exports amounting to 36·8 per cent. A considerable part of those consists, however, of agricultural products (breadstuffs and live animals), in which Great Britain does not enter as a competitor ; but if all the values of this class are added together, they do not amount to quite one-third of the total exports. More than two-thirds (£3,792,259 = \$18,455,028) of the total exports are wares in which America appears as a competitor of England in the South African markets.

During the fiscal year 1901-2 this part alone of the American exports to South Africa increased 29·4 per cent compared with the previous year.

The following figures show the classes of goods in which American competition is especially dangerous to England.

Compared with the previous year, American exports increased as follows :

|   |                      |
|---|----------------------|
| Iron goods.....   | £108,538 = \$527,237 |
| Machinery, including plows, other agricultural implements |                      |
| typewriters.....  | 42,000 = 204,393     |
| Household goods.....                                      | 22,719 = 110,562     |
| Boots and shoes.....                                      | 18,483 = 89,947      |
| Textiles.....   | 12,500 = 61,831      |

The preferential tariff on British goods to Canada was viewed with indifference by America, as it was believed that American trade in Canada could not be arrested by the preferential tariff. With South Africa, however, far distant from the United States, the case is entirely different. The tariff treatment of American imports there is of more weight for America than in Canada.

REGULATION *re* CUSTOMS INVOICES IN THE AUSTRALIAN  
COMMONWEALTH.

MELBOURNE, AUSTRALIA, June 12, 1903.

The Right Honourable,  
The Minister of Trade and Commerce,  
Ottawa, Canada.

SIR—I am informed by the Right Honourable, the Minister of Trade and Customs that “the regulation noted” has not yet been enforced, but is under the consideration of his Department.

D. H. Ross.

## FORM OF CUSTOMS INVOICE.

The following notice with respect to the form of invoice for presentation to the department has been issued :—

The Minister directs that in regard to all goods upon which duty is charged according to the value thereof, and which shall be ordered after July 1st, 1903, the invoices of such goods presented to the Customs must comply in all respects with the requirements of the Customs Act, 1901, and show clearly the gross value of the goods and all charges made in connection with the same, which it may be sought to deduct for payment of duty from the gross value, clearly and separately set out in the invoice. Such deductions should be in the same handwriting as the body of the invoice. Should such charges not to be so shown no deduction thereof can be allowed in estimating the value of the goods for duty. In cases where the invoice is typewritten and charges are shown in manuscript, or where such charges have been inserted in a different handwriting to the body of the invoice, the entry relating to the charges must be signed by the person making the same, with the addition of the date and the place where made. Unless such addition be made in the manner above mentioned by the seller or his authorized employe, it will not be recognized by the Customs. In the case of discounts being shown on the invoice as having been allowed for any reason whatever, it is to be distinctly understood that such discounts cannot be allowed by the customs, unless such are *bona fide*, and have been actually given, and the benefit thereof obtained by the purchaser. The department reserves to itself the right of requiring proof of the correctness of any changes, discounts, or deductions shown on the invoice, and may at any time refuse to recognise any discounts set out on any invoice unless accompanied by clear proof of their correctness. After the goods have passed out of the control of the customs no alteration can be made in regard to the value for duty as shown by the invoice upon which the entry was passed, and no refund of duty can be allowed, the claim to which is based on the fact that certain charges had not been allowed for in any invoice.

# CANADIAN EXPANSION OF TRADE

The marvellous growth of Canada, since confederation in 1867, in every branch of trade and commerce, has not been equalled, per capita, by any other British colony or foreign country in that period.

CANADA'S PERCENTAGE OF GROWTH THE HIGHEST.

The following statement shows the relative position of Canada with respect to the total volume of trade (merchandise only) with ten other countries for five years, that is to say, for the years from and including 1897 to the close of 1902.

In the case of Canada and the United States the fiscal years end June 30, 1898 and 1903, and hence the figures for that period are shown. In the case of all others the figures for the calendar years for 1897 and 1902 are shown, being the only figures available.

The figures in each case include the imports for consumption and exports of domestic produce (merchandise only) unless otherwise stated.

CANADIAN EXPORTS.

The following brief summaries, by decades, of the more important of Canada's exports give a fair idea of the substantial growth of the Dominion. The figures given in each case are for the twelve months ending June 30th, Canada's fiscal year, and the years chosen for comparison are the census years since confederation, together with the last two fiscal years ending June 30th, 1903. The figures for 1903 are 'unrevised,' though no appreciable change will result from the revision.

ANIMALS AND THEIR PRODUCE.

Canada's greatest class of exports is in that of 'Animals and their Produce.' Since confederation the Dominion's wealth of production has been abundantly shown, as follows:—

|                 |              |
|-----------------|--------------|
| Year 1871 ..... | \$12,608,506 |
| “ 1881 .....    | 21,360,219   |
| “ 1891 .....    | 25,967,741   |
| “ 1901 .....    | 55,495,311   |
| “ 1902 .....    | 59,161,209   |
| “ 1903 .....    | 69,817,542   |

AGRICULTURAL PRODUCTS.

In the exports of 'Agricultural Products' Canada has made great progress, and yet with her magnificent resources the exports in this class can be said to have only begun.

|                 |              |
|-----------------|--------------|
| Year 1871 ..... | \$ 9,853,924 |
| “ 1881 .....    | 21,268,327   |
| “ 1891 .....    | 13,666,858   |
| “ 1901 .....    | 24,781,486   |
| “ 1902 .....    | 37,152,688   |
| “ 1903 .....    | 44,624,321   |

MANUFACTURES.

As a manufacturing country, Canada's exports have shown a gratifying increase in competing in the markets of the world.

|                 |              |
|-----------------|--------------|
| Year 1871 ..... | \$ 2,432,750 |

| “ 1891 .....    | 6,296,249    |
| “ 1901 .....    | 16,012,208   |
| “ 1902 .....    | 18,462,970   |
| “ 1903 .....    | 20,624,967   |

**PRODUCE OF THE FOREST.**

Canada's boundless forests have only begun to yield their wealth, for the constantly increasing world's demands for timber of all kinds. The forests of the neighbouring Republic are fast approaching complete denudation, while Canada can yet supply the world for many years. The exports of the products of the forest have been as follows :—

|                |              |
|----------------|--------------|
| Year 1871..... | \$23,063,223 |
| “ 1881.....    | 24,960,012   |
| “ 1891.....    | 24,282,015   |
| “ 1901.....    | 30,009,857   |
| “ 1902.....    | 32,119,429   |
| “ 1903.....    | 36,386,015   |

**WHEAT AND CHEESE.**

Notwithstanding the vast wheat-fields of Canada and almost unlimited areas yet to be sown, Canada has in the past exported more cheese than wheat as the following figures will show :—

|                | Wheat.       | Cheese.      |
|----------------|--------------|--------------|
| Year 1871..... | \$ 1,981,917 | \$ 1,109,906 |
| “ 1881.....    | 2,593,820    | 5,510,443    |
| “ 1891.....    | 1,583,084    | 9,508,800    |
| “ 1901.....    | 6,871,939    | 20,696,951   |
| “ 1902.....    | 18,688,092   | 19,686,291   |
| “ 1903.....    | 24,566,703   | 24,712,943   |

It will be seen from the above that the exports in wheat are rapidly overtaking those of cheese, and, with the tremendous impetus in immigration and settling of the North-west, that the wheat exports for the next year will likely be greatly in excess of those of cheese.

**BEST WHEAT IN THE WORLD.**

So-called Manitoba wheat, which includes that from the North-west Territories, is held to be the best in the world and is in good and increasing demand for mixing with softer wheats grown elsewhere. Of it there was shipped ex terminal elevators at Fort William and Port Arthur, during the ten months to June 30th last, over 40,000,000 bushels, which quantity can and will be increased ten-fold in as many years.

**PRODUCE OF THE MINE.**

In mineral production Canada's wealth is increasing with almost incredible rapidity and the richness of her stores in these valuable commodities remains inexhaustible. In the following periods the production (calendar years) and amount exported (fiscal years) are shown :—

|                 | Production.  | Exports.     |
|-----------------|--------------|--------------|
| Year 1871... .. | \$ 6,043,868 | \$ 2,841,124 |
| “ 1881.....     | 7,610,108    | 2,767,829    |
| “ 1891.....     | 18,976,616   | 5,784,143    |
| “ 1901.....     | 66,712,708   | 40,367,683   |
| “ 1902.....     | 64,970,732   | 34,947,574   |

**FISHERIES.**

The fisheries of Canada have always been considered one of the most important resources of the country. From earliest times the exports of fish have been encouraged and since Confederation have greatly increased in value. The exports have been as follows :—

|                 |              |
|-----------------|--------------|
| Year 1871 ..... | \$ 3,994,275 |
| " 1881 .....    | 6,867,715    |
| " 1891 .....    | 9,715,401    |
| " 1901 .....    | 10,720,352   |
| " 1902 .....    | 14,143,294   |
| " 1903 .....    | 11,800,184   |

**REVENUE AND EXPENDITURE.**

Receipts and payments on account of the Consolidated Fund (ordinary revenue and expenditure) for the undermentioned years :—

|                 | Revenue.      | Expenditure.  |
|-----------------|---------------|---------------|
| Year 1871 ..... | \$ 19,335,561 | \$ 15,623,082 |
| " 1881 .....    | 29,635,298    | 25,502,554    |
| " 1891 .....    | 38,579,311    | 36,343,568    |
| " 1901 .....    | 52,514,701    | 46,866,368    |
| " 1902 .....    | 58,050,790    | 50,759,392    |
| " 1903 .....    | 63,739,273    | 41,449,102    |

**NET DEBT.**

The net debt of Canada at the end of the undermentioned fiscal years has been as follows :—

|                 |               |
|-----------------|---------------|
| Year 1871 ..... | \$ 77,706,518 |
| " 1881 .....    | 155,395,780   |
| " 1891 .....    | 237,809,030   |
| " 1901 .....    | 268,480,004   |
| " 1902 .....    | 271,829,090   |
| " 1903 .....    | 254,934,638   |

**DEPOSITS.**

The growing wealth of the Canadian people may be evidenced in one respect by the growth of deposits in the chartered banks, post office savings banks, &c., by the following totals :—

|                 |               |
|-----------------|---------------|
| Year 1871 ..... | \$ 68,123,931 |
| " 1881 .....    | 107,188,699   |
| " 1891 .....    | 193,015,474   |
| " 1901 .....    | 390,949,482   |
| " 1902 .....    | 423,748,777   |
| " 1903 .....    | 460,950,580   |

### LOAN COMPANIES AND BUILDING SOCIETIES.

In the last thirty-one years the total assets of loan companies and building societies have increased nearly twenty times, as evidenced by the following statistics for the calendar years undermentioned :—

|                 |              |
|-----------------|--------------|
| Year 1871 ..... | \$ 8,392,464 |
| " 1881 .....    | 73,906,638   |
| " 1891 .....    | 125,041,143  |
| " 1901 .....    | 158,523,307  |
| " 1902 .....    | 162,531,693  |

### CHARTERED BANKS.

The splendid banking system of Canada has never been found wanting and its elasticity of circulation has met every requirement.

The assets of the chartered banks are nearly five and a half times larger than in 1871, as the following statement will show :—

|                 |                |
|-----------------|----------------|
| Year 1871 ..... | \$ 121,014,395 |
| " 1881 .....    | 198,967,278    |
| " 1891 .....    | 269,491,153    |
| " 1901 .....    | 528,304,110    |
| " 1902 .....    | 581,876,985    |
| " 1903 .....    | 641,985,372    |

### IMMIGRATION.

With the growth of Canadian trade has come an era of rapid development throughout the great North-west Territories. Immigration to that part of the country especially, in the past year, has beaten all records. The following figures show the recent increases in this respect :—

|                 |         |
|-----------------|---------|
| Year 1871 ..... | 27,773  |
| " 1881 .....    | 47,991  |
| " 1891 .....    | 82,165  |
| " 1901 .....    | 49,149  |
| " 1902 .....    | 67,379  |
| " 1903 .....    | 124,658 |

As an evidence of the continued growth in numbers of immigrants to Canada and to give an idea whence they come, the following late information is added :—

The returns for the month of July, 1903, were 11,278. Compared with July, 1902, this shows an increase of 2,689. They were as follows for July each year :—

|                     | 1902.       | 1903.        |
|---------------------|-------------|--------------|
| British .....       | 2,170       | 5,093        |

**FIRST IN RAILROAD MILEAGE.**

In transportation Canada has had to undertake gigantic railway schemes to draw more closely together her vast dominions. Per capita, Canada stands first among the nations and colonies of the world in railroad mileage, and eighth among all countries irrespective of population. Its miles in operation in the undermentioned years were as follows :—

|                | Miles. |
|----------------|--------|
| Year 1871..... | 2,497  |
| " 1881.....    | 7,260  |

| " 1902.....    | 18,868 |
| " 1903.....    | 19,834 |

**SHIPPING.**

Canada's shipping has shown a steady increase since Confederation as the following figures show, being the number of tons register of sea-going, coasting and inland water vessels entered and cleared :—

**COMMERCIAL AGENCIES.**

The Department of Trade and Commerce has the special duties assigned to it of promoting, as the name indicates, the trade of Canada. With this end in view Commercial agents have been appointed in various parts of the world who report monthly to the Department. These agents are under the careful control and direction of the Department so that their labours yield the highest possible benefit to those Canadians who seek the foreign markets. Their reports are published monthly and mailed free to applicants in Canada. The list of agents is as follows :—

J. S. Larke, The Exchange, Sydney, N.S.W., agent for New South Wales, Queensland, and New Zealand.

D. H. Ross, Melbourne, Victoria, agent for Victoria, South Australia, Western Australia and Tasmania.

James G. Jardine, P. O. Box 1232, Cape Town, Cape Colony, agent for South Africa.

Peter B. Ball, 16 Bennett's Hill, Birmingham, England, agent for Birmingham.

A. Poindron, 101 Rue Réaumur, Paris, France, agent for France.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Grubbegd, No 4, Christiania, Norway, agent for Norway, Sweden and Denmark.
